6:42; sunset, 4:44; moon 11:11 p.m.

WEDNESDAY—Maximum temperature, 50 deg.; minimum, 30 deg. S.W. wind; velocity, 5 to 10 m.p.h. At midnight the temperature 48 deg.; clear.

At 2 a.m. the temperature 45 deg.; clear.

Complete weather report, in comparative temperatures, found on page 12, part II.

## THE CHIEF.

ST. PAUL, Minn., Dec. 2.—

Chief of Police John J. O'Connor admitted today that he considered the strike situation serious when he ordered all members of the day force to stay on duty at Central Station until 10:30 p.m. The order was issued tonight and will continue until all danger of a clash between strikers and strike breakers is ended.

The Chief also issued orders recalling all patrolmen and officers on leave. Sub-stations were notified not to permit any men to stay off duty except for the most serious illness.

Several conferences between the Chief and officials of the railroad have been held today.

According to railroad officials the beginning of the end of the switchmen's strike is in sight. A prominent official said today that the railroad was handling a per cent. of all business offered.

"We are employing new men as fast as they come, and we are moving a large amount of freight in a week. The public will not know that there is a strike."

Some 250 men arrived today from Chicago and were distributed to the various yards and shops. The railroad men are working, and the striking switchmen, and that now on hand are experienced work. Some will be placed at duty at the yards and others will act as guards.

Five switch engines were in the union depot yards early this morning. According to a statement by Third Vice-President Duke of the Northern Pacific two coal trains moving today between Duluth and Paul and four trains of grain, cellulose freight were in Duluth from the West. The service, he said, had been maintained on virtually all lines.

Some St. Paul wholesale men reported that shipping was improved, but could produce men said that the railroad managers say they are in a strong position to stand the strike.

The Brotherhood of Railroad Carmen and the Order of Switchmen, who refused to do any switching, except at those stations where it has been customary for train crews to switch their trains.

Factory forces are being reduced because of the shortage of supplies caused by the freight tie up, and the two big shops of the Great Northern railroad, employing 1000 men, failed to open today.

All except one of the twenty-three big flour mills in Minneapolis are idle, although millmen say they will know in twenty-four hours whether they will open their mills soon.

STRIKE-BREAKERS POLICE. Imported strike-breakers wearing special police badges were reported on duty at the union station yards today by strike pickets. When Hawley learned that these men had been imported he called attention of the State Labor Commissioner to the matter. Labor Commissioner McEwen said that if men wearing police badges were not residents of Minnesota they and those responsible for their presence in the State were violating the State law. McEwen is investigating the report, and said this afternoon that if he finds non-residents of Minnesota wearing special police badges he will at once take action.

## STRIKE GAG UPON I. W. W. ORATORY.

SPOKANE, Dec. 2.—One odd effect of the strike is the crippling of the efforts of the Industrial Workers of the World to bring in street speakers to take the place of speakers now in jail here.

As a large proportion of these "volunteers" object to paying tribute to the railway, and travel on brake beams, the blocking of nearly all freight trains may seriously hinder their progress to Spokane.

## BIG STICK SWINGS.

Secretary Knox Is Man of the Hour.

Drastic Action Toward Zelaya Makes Diplomats Gasp in Alarm.

Safety of Consuls May Be Endangered by Hasty Action.

Move Likely to Meet Popular Approval Without Reservation.

BY WALTER WELLMAN.

WASHINGTON, Dec. 2.—(Exclusive Dispatch.) View with a vengeance, even out-Roosevelting Roosevelt in the savage warring and swish of the "big stick," is the general characterization of Secretary Knox's Nicaraguan policy.

Today the little man who presides over the State Department was just as busy and pugnacious as he was yesterday. Last night he severed all diplomatic relations with the Zelaya government; today he had a number of warships and a formidable force of marines ordered to Nicaraguan ports. The cruiser Albany and the gunboat Yorktown, now at Magdalena Bay, Lower California, were ordered to Corinto, the Nicaraguan Pacific port, and the Prairie, with 700 marines aboard, was hustled south from Philadelphia.

Meanwhile Sefior Rodriguez, President Zelaya's erstwhile representative at this capital, having been informed by Secretary Knox that he can no more enter the front door of the State Department as chargé d'affaires, but is welcome to come in at the back door as a private person, is awaiting instructions from his luckless boss at Managua.

Chancellors and other neutral spectators looking on from the sidelines are waiting and wondering to see what the next step is to be in this programme of the Pittsburgh dictatorship of the continent. It is pretty evident the United States government has determined to put Zelaya out of business, and to set up another so-called President in his place. Curiosity is rife as to whether the State Department and its strong right arm, the Navy Department, will wait a reasonable time for the people of Nicaragua to effect their own revolution or whether, under orders from Washington, marines will be landed in order to make sure of having the business done with neatness and dispatch. After recent developments along the line of shotgun diplomacy, no one would be surprised at anything.

There is much anxiety here as to the safety of our consuls and a few other American citizens in Nicaragua. Now that Secretary Knox has all but made war upon that country, no one would be surprised if Zelaya were to turn at bay and show his fangs in a most ugly manner. Fearful Americans expressed Vice-Consul Caldera, who is American chargé d'affaires at Managua, may be in jeopardy as it is known that Zelaya hates him. If the President of Nicaragua is as wicked as Secretary Knox makes him out to be—and the indications are that he is—the trouble has only begun. Speculation is rife as to whether it would not have been better policy to get some ships and men on the coast before going far toward war as the executive branch of our government dare go without the authorization of Congress.

In administration circles there is a belief based upon hope, that Secretary Knox's extremely vigorous handling of this case will be popular throughout the country. Public sentiment is extremely sensitive in all cases of injury to American citizens abroad and the facts when finally ascertained, show that the two young Americans were entitled to belligerent rights and were tortured before being executed. It is

## MOSQUITO FLEET NOW READY FOR ACTION AGAINST ZELAYA.

THE Buffalo at El Castillo, 400 men. It was reported today that these marines had been landed.

The Marietta at El Castillo, 155 bluejackets.

The Des Moines at El Castillo, 280 men.

Cruiser Tacoma, 280 men, ordered to El Castillo.

At Corinto, the Vicksburg, with 155 marines.

The cruiser Albany, at Corinto, with 280 men.

The Yorktown, 185 men, at Corinto.

AVAILABLE WARSHIPS.

Cruisers: Albany, third class, bought from Italy in 1898, 3430 tons, 10 five-inch guns, 15 smaller guns; Des Moines, third class, 2200 tons, same armament as the Albany.

Gunboats: Marietta, 990 tons, six four-inch guns and smaller weapons; Princeton, now off Pacific Coast of California, 1100 tons, six four-inch guns, eight smaller; Vicksburg, 1100 tons, six four-inch guns, eight smaller weapons; Yorktown, 1710 tons, six four-inch guns, 10 smaller.

Transports: Buffalo, 6000 tons, six four-inch guns, eight smaller, capacity, 29 officers, 800 men; Prairie, 6620 tons, 8 six-inch guns, 12 small guns, all under four-inch, capacity, 22 officers, 1000 men.

(Associated Press Night Report.)

TACOMA IS SNOWBOUND.

Nearly Foot Falls and Ties Up Street Cars—Light Wires Are Down.

(Associated Press Night Report.)

TACOMA, Dec. 2.—Tacoma is blanketed by nearly a foot of snow. Street car traffic is almost at a standstill, and light and telephone wires are down.

BALTIMORE HAS BAD FIRE.

BALTIMORE, Dec. 2.—Fire broke out tonight in a building in South Sharp street, within a block and a half of the point of origin of the great fire of 1904. In its spread the fire involved the establishments of many shoe dealers and house furnishers. The flames jumped the narrow alley and gained a momentary foothold in a big building occupied by a dry goods firm. Later the total loss was estimated at \$500,000.

## THE DREAM OF TWO BOSSES.

## COMMONS DEMAND CONTROL OF PURSE.

LONDON, Dec. 2.—By a majority of 215 the House of Commons recorded its claim today to exclusive control of the nation's purse—a claim never before challenged in modern times.

The vote was taken on a resolution offered by Premier Asquith, which declared that "the action of the House of Lords in refusing to pass into law the financial provisions made by the chamber for the expenses of the year, was a breach of the Constitution and a usurpation of the rights of the House of Commons."

The resolution was passed by a vote of 240 to 134. By this vote the opposing forces of the Lords and Commons are placed in battle array for one of the greatest Constitutional struggles that has come before the country for centuries.

Scenes of enthusiasm which accompanied the voting of Mr. Asquith's resolution were in marked contrast to those witnessed in the recent debate before the Federal Inspectors investigating the loss of the St. Croix.

The witness also testified that the officers and crew of the St. Croix made no serious effort to subdue the flames, and said he believed that the steamer could have been saved had they shown any desire to do so.

Inspector Bulger asked the witness if he had not stated in a conversation with the Federal officer, that he had heard that Peters, the quartermaster, had been offered \$3000 not to appear. The witness said he had heard such a statement, but that the inspector might be mistaken as to the language used in telling it.

NO AID FOR STRIKERS.

President Meyer Tells Deadwood Men to Spend Their Own Money Until It's Gone.

(BY DIRECT WIRE TO THE TIMES.)

DEADWOOD (S. D.) Dec. 2.—[Exclusive Dispatch.] Addressing the striking miners here tonight at a special meeting of the union, President Meyer of the Western Federation of Miners said to have told them to go ahead on their own resources as long as possible and that, when absolutely necessary, the federation would give financial assistance.

The miners were plainly dissatisfied with this arrangement, as many of them have spent their money freely, believing benefits were coming, and to those in close touch with the situation here, it looks tonight very much as if the majority of miners were on the point of withdrawing from the federation. The question of Meyer's statement that he would not pay benefits at once is discussed on the street tonight.

## J. P. MORGAN BUYS EQUITABLE LIFE.

NEW YORK, Dec. 2.—Control of the Equitable Life Assurance Society, secured by Thomas F. Ryan, after the insurance scandal a few years ago, has passed to J. Pierpont Morgan with the \$472,000,000 of assets which the company declared in its last statement. The transfer, apart from the magnitude as a change in the history of finance, marks a complete reversal of the old order under which insurance companies controlled destinies of banks and trust companies.

News of the transfer was contained in the following brief statement from the offices of Morgan & Co.: "Mr. Morgan has bought the majority of the stock of the Equitable Life Assurance Society, formerly owned by Thomas F. Ryan. This purchase is subject to the trust under which Grover Cleveland, Morgan J. O'Brien, and George Westinghouse were made trustees for the benefit of the policy holders, and it covers all Mr. Ryan's interest, including all stock purchased by him from James H. Hyde."

Beyond these bare facts, Mr. Morgan and his partners declined to give any details. The exact amount of the stock bought by them and the price they paid are for subsequent announcement after the insurance scandal a few years ago, has passed to J. Pierpont Morgan with the \$472,000,000 of assets which the company declared in its last statement. The transfer, apart from the magnitude as a change in the history of finance, marks a complete reversal of the old order under which insurance companies controlled destinies of banks and trust companies.

News of the transfer was contained in the following brief statement from the offices of Morgan & Co.: "Mr. Morgan has bought the majority of the stock of the Equitable Life Assurance Society, formerly owned by Thomas F. Ryan. This purchase is subject to the trust under which Grover Cleveland, Morgan J. O'Brien, and George Westinghouse were made trustees for the benefit of the policy holders, and it covers all Mr. Ryan's interest, including all stock purchased by him from James H. Hyde."

## NAVAL FORCES MOVE FORWARD

Troop Ship, Cruiser and Gunboat Dispatched.

Ample Strength to Ace President Zelaya.

Admiral Kimball Goes as Flag Officer.

(Associated Press Night Report.)

WASHINGTON, Dec. 7.—Naval forces of the United States are being moved forward tonight to both coasts of Central America to protect American life and property in Nicaragua by force of arms, if necessary.

With the departure this afternoon from Philadelphia of the troop ship *Prairie*, with 700 marines aboard, for the isthmus of Panama, and if it be so desired, for Nicaragua, and with the sailing from Magdalena Bay of the protected cruiser *Albatross* and the gunboat *Yorktown* for Corinto, on the Pacific Coast of Nicaragua, activity of the Navy Department was becoming manifest on both oceans that wash the Nicaraguan shore.

Besides, the cruisers *Des Moines* and *Tacoma* and the gunboat *Marietta* are lying off Port Limon, Costa Rica, ready for any call upon them, and guns of the little gunboat *Vicksburg* are pointed toward the customs house and town of Corinto. The gunboat *Princeton* also is endeavoring to make her way from the Bremerton navy yard to Corinto.

With the probability of many delicate questions arising in Nicaragua, the Navy Department decided to send a flag officer to Nicaragua to take command of the American naval forces. Rear-Admiral William W. Kimball was chosen. He sailed for Colon, Panama, today on the *Prairie*. He will make his way from there to Corinto, doubtless as rapidly as possible.

Admiral Kimball is a member of the naval board of examinations and retirements and of construction. No marines have been landed at any point in Nicaragua. That statement was made to the Associated Press tonight by Brig.-Gen. George F. Elliott, commanding the United States Marine Corps.

Neither are there any marines on board any United States war vessels now in Nicaraguan waters, said Gen. Elliott. "The marines nearest Nicaragua are at Panama."

"Have they been ordered to Nicaragua?" Gen. Elliott was asked.

"Not yet," replied the commander.

**Nicaragua Wants to Buy Schooner.**

WASHINGTON, Dec. 7.—The Nicaraguan government is negotiating for assembly purchase of a schooner named *Albatross* for the use of the government.

The schooner is planned to equip \$200,000 with rapid-fire guns obtained from the government of Panama. The deal is hardly possible at present, as the Nicaraguan government is not likely to furnish artillery to a country that is not on good terms with the United States.

For Christy Schooner Herald reported in the vicinity of Panama. Burdette and Plummer, who are in the vicinity of Panama, D. W. I. This speaker has not been reported from Panama. The schooner is planned to equip \$200,000 with rapid-fire guns obtained from the government of Panama.

On the way to Corinto, he will hear the news of the day.

**YELAYA HOLDS HIS GROUND.**

(Associated Press Night Report.) MANAGUA (Nicaragua) Dec. 7.—The action of Secretary Knox in dismissing Señor Felipe Rodríguez, Nicaraguan chargé d'affaires at Washington, has greatly surprised President Zelaya, who reiterated today his belief that the Nicaraguan government was justified in executing the Americans, Groce and Cannon.

Zelaya will take no action until he has received further information on the subject and learns definitely the intentions of the United States. The American Vice-Consul, Mr. Caldwell, a Nicaraguan by birth, but a naturalized American, is still at the consulate. In the opinion of President Zelaya, Caldwell sympathizes with the opposition party, and a close watch has been kept on him, although there has been no attempt at restraint.

Zelaya expressed the belief that, in all probability, Consul Caldwell's representations have been partial to the government's enemies.

**ELKS TO HERD AT ORPHEUM.**

The local lodge of Elks has taken 500 seats at the Orpheum for next Monday night, and has more under option. For what it procains will be the biggest theater party in the city's history. The affair will include all the high officials of the lodge, with the White Squadron in full uniform as escort, and the war chest of the order will be a feature of the performance. The house will be elaborately decorated with purple and gold heads for the occasion, which, as well as being a boost for the famous "1504499," is in honor of Lockwood & Bryson, who are playing there, and whose husbands are well known members of the order. Misses Lockwood and Bryson were honored with a party of forty last Monday night.

**For Sale—Plate Glass Showcase.** Lockwood & Bryson, 415 Broadway. Call today, 515 Broadway.

## REVOLUTIONIST LEADER IN WAR ON ZELAYA.

Interest in the United States actually had in the convention and the standing of the various republics with your government.

"Now it is plain to us, President Zelaya is desirous of finding a man whom he can command to put in the President's palace. Naturally he turns to Madrid, who has served him well, and with the exception of one or two revolts, is to be depended upon. If Madrid finds his way to the Presidency, conditions in Nicaragua will continue the same as before, because the rule will be Zelayan, even though by proxy."

While the State Department has been acquainted fully with the movement afoot, it is not prepared to protest in view of the extremely powerful note addressed to President Zelaya yesterday through the Nicaraguan representative. It is not believed that Zelaya will attempt extreme methods.

**PRAIRIE GOES ON MUD BANK.**

(Associated Press Night Report.) PHILADELPHIA, Dec. 7.—Carrying a full complement of the United States navy, two battalions of marines, and enough implements of war to conduct a vigorous campaign against the turbulent Central American republic of Nicaragua, the auxiliary cruiser *Prairie* ran aground on a mud bank off the Delaware River tonight a few hours after weighing anchor at the Philadelphia navy yard, bound for the Caribbean Sea. The vessel was hoisted on a barge and is being towed to the Delaware River tonight a few hours after weighing anchor at the Philadelphia navy yard, bound for the Caribbean Sea.

The *Prairie* is a 2,500-ton vessel, 250 miles below the city, between New Castle and Delaware City. Reports that stern measures would be adapted against Nicaragua, and the *Prairie* was hoisted on a barge and is being towed to the Delaware River tonight a few hours after weighing anchor at the Philadelphia navy yard, bound for the Caribbean Sea.

It is believed that the vessel sustained no injury, but if necessary the cargo will be transferred to the *Prairie*, which lies in readiness at the Philadelphia navy yard.

Premier Giolitti.

of Italy, whose Cabinet yesterday resigned when Chamber of Deputies refused to endorse finance reform measure.

**FINANCE REFORM WRECKS CABINET.**

ITALIAN PREMIER FAILS TO GET ENDORSEMENT OF CHAMBER.

Government's Proposition to Reduce Indirect Taxation on Necessities the Loss of Revenue to Be Offset by Progressive Income Levy Is Refused by Deputies.

(Associated Press Night Report.) ROME, Dec. 7.—The Cabinet of Premier Giolitti resigned today.

The announcement of the resignation of the Cabinet was made by Premier Giolitti, following the failure of the Chamber of Deputies to pass the government bill for finance reform.

The government had proposed the reduction of indirect taxation on necessities, the loss of revenue from this source to be offset by a progressive income tax.

**PEARL NECKLACE SEIZED.**

Collector Took Chesbrough Gems for Duty Believed to Have Been Taken.

(Associated Press Night Report.) NEW YORK, Dec. 7.—The Chesbrough pearl necklace, the journeyings of which had placed it among the historic cases of the customs house, was seized yesterday by Collector Loeb, who apprehends the \$125,000 worth of pearls, valued at \$5,000. The owner is Mrs. Fremont R. Chesbrough, wife of a millionaire lumberman and steamship proprietor of Detroit and Boston.

Two customs inspectors "saw" their way to a bill of sale for the pearls last May in the false bottom of one of Mrs. Chesbrough's trunks, but the pearls were missing. Mr. Chesbrough then informed the customs officers that the jewels were being held to his order in Toronto, Can. Collector Loeb says he insisted upon possession, but was given what proved to be an imitation.

He continued to press the government's claim, and on July 23 he obtained the original bill of sale. Since then, pending proof that the pearls never been in this country. Such proof has not been forthcoming, according to Mr. Loeb, and today the necklace was seized as a preliminary to action against Mrs. Chesbrough.

Bishop Daniel A. Goodson of the Methodist Episcopal church is seriously ill at his home in New York, following an operation for the removal of a growth on his neck. Although for two days after the operation the bishop's condition was so serious that it was hoped he might be relieved, it was announced yesterday that he had rallied and that his physicians expect his speedy recovery.

## URGE MINES DEPARTMENT.

Representatives Tell the President of Need.

Say Cherry Disaster Might Have Been Averted.

Recommendation for Bureau Has Been Made.

WASHINGTON, Dec. 2.—Having completed work upon his message last night, President Taft began receiving Congressional and other visitors today. The message is now in the hands of the public printer.

Several visitors during the day talked to the President about portions of his message. Among them were Representatives Douglas of Ohio, and Austin of Tennessee. Both men are deeply interested in the establishment of a Bureau of Mines and Mining. Mr. Douglas told the President that if there had been such a bureau as urged by Mr. Douglas, but he would not have been able to obtain a large appropriation for the continuation of experimental work provided for by the last Congress, which appropriated \$150,000.

Foreign countries have reduced the death rate from accidents in mines from four to five per 1000, to less than one in each 1000 miners. Mr. Austin said, "and it is the duty of the United States to do something for its miners."

### TALK PEACE.

NOBEL TRUSTEES MEET.

WASHINGTON, Dec. 2.—The proposed increase of the fund which originally was \$40,000, and amendments to the by-laws occupying much of the session of the board of trustees, and Industrial Peace Committee of the Nobel foundation for the promotion of industrial peace today.

### ON YUMA PROJECT.

MAKING GOOD PROGRESS.

WASHINGTON, Dec. 2.—[Exclusive Dispatch.] The reclamation engineer on the Yuma project reports the completion of the California side of about 15 miles and two steam shovels in excavating the main canal. On the Indian reservation, three camps have been started, and the canal and levee construction. The canal to water these lands have been completed. Operations have been commenced on the American side of the Colorado siphon. During the month of November the farmers' pump and the scoop wheel supplied approximately 700 acres in crop.

### PANAMA PLOT.

ATTEMPT TO WERK.

WASHINGTON, Dec. 2.—Efforts to wreck with dynamite a portion of the track of the Panama Railroad Company, made on the night of November 2, have been made known here. The fact was made known here at the office of the Isthmian Canal Commission, through the offer by the government of a reward on information leading to the arrest of the person or persons who were implicated in the plot.

### OLIVE CROP ABROAD.

ESTIMATE FROM FRANCE.

WASHINGTON, Dec. 2.—[Exclusive Dispatch.] Consul-General A. Gaultin at Marseilles reports that a French official estimates the olive crop for 1931-32. France, which is one-third of last year's crop. Algeria, good crop, equal to that of 1928-29; Tunisia, two-thirds to three-fourths normal crop; Italy, one-third crop; Spain, one-third of full crop.

### WASHINGTON BRIEFS.

New Postmasters.

WASHINGTON, Dec. 2.—[Exclusive Dispatch.] The following California postmasters have been appointed: Walter E. Cray, Duarte, Tulare county; vice M. Harmon; Miss Mattie Munis, Hanford, San Luis Obispo; vice E. J. Adair; James W. Parkinson, North San Diego; vice P. S. Connors.

### Early Arrested as Menace.

WASHINGTON, Dec. 2.—John R. Early, the ex-soldier who is alleged by some authorities to be a leper, appeared in Washington last night and circulated freely about the city today. This afternoon he was arrested as a menace to public health.

### LANE TO BE REAPPOINTED.

Interstate Commerce Commissioner Secure in His Office.

WASHINGTON, Dec. 2.—[Exclusive Dispatch.] It is reported that Postmaster-General Hitchcock, who is also chairman of the Republican National Committee and so powerful as regards patronage, has said that Franklin K. Lane, Interstate Commerce Commissioner, was to be reappointed. In view of the rumor that Hitchcock had another candidate for Lane's place this is important.

### President Taft Has Told at Least Two Senators that He Intended to Reappoint Lane, because He Approved of His Record. This seems to indicate that Lane is sure to succeed himself.

## NORTHWESTERN STRIKE

(Continued From First Page.)

once order their arrest, as well as the arrest of those who brought them here, if they appear liable under the law. The law makes it illegal for any one not a member of the State to act as a special police officer, detective, constable, militiaman or patrolman. If they have been sworn in, they are liable to imprisonment for one year.

An official statement issued today by General Manager Slade of the Northern Pacific, says:

"With the exception of delays to passenger trains at St. Paul, passenger trains are being delayed on account of a failure to have switching or yard service."

"Freight houses at St. Paul, Minneapolis and at most of the other large stations on the line are beginning to receive freight for such points as business can be handled without delay."

"In general, there is a resumption of freight movement. From most points on the line reports are coming in that additional switching forces are being secured."

"The warehouses were open and the roads accepted limited freight shipments to points in Dakota and Montana."

### MILLS LOSING MILLIONS.

In Minneapolis, where all but one of the twenty-three big flour mills are closed laying off about 5000 men, the weekly loss to the milling business is estimated at \$500,000.

It is stated the flour mill men will lose \$75,000 a week in wages while the mills are closed.

At the head of the lakes, a continuation for a few more days of the present congestion will force 10,000 men out of employment.

The Great Northern shops at St. Cloud have been closed since the strike began. It is reported that the shops in the North will be closed without absolutely stopping every wheel will close at once.

Second Vice President Slade of the Northern Pacific today sent the following statement to the Associated Press:

"There is absolutely no foundation for the report that the American Railway Association is to give financial support to the railroads whose switchmen are now on strike in the Northwest."

The lines involved are fully able to meet the increased expense of handling the situation, which is showing daily improvement from the standpoint of the railroads.

Vice-President Slade and General Manager Gruber of the Great Northern denied tonight a story from Spokane that engineers at that road, and their respective systems have demanded an advance in wages. Mr. Gruber said the engineers at that road were asked for a conference with the general managers committee in October, soon after the switchmen requested a hearing, but that no individual demands had been made on the two roads.

The statement that a new schedule was being prepared at the Great Northern offices was declared by Mr. Gruber to be untrue.

### STRIKERS AT DULUTH TO RETURN TO WORK.

(ASSOCIATED PRESS NIGHT REPORT.)

DULUTH (Minn.) Dec. 2.—As a result of a meeting of the Brotherhood of Railway Trainmen this afternoon, 80 per cent. of the striking switchmen here agreed to return to work tomorrow. More than half of them for the Northern Pacific. It was decided that the order of switchmen to strike was unconstitutional and they were advised to hold out no longer.

The first violence in the strike was reported in Duluth today when Superintendent Nicholas, of the Northern Pacific road, applied for protection, claiming several train crews had been attacked by strikers. The strikers posted themselves on the viaducts crossing the railroad tracks and threw stones. The windows in one engine were shattered by the glass. Other men were slightly injured also.

The chief of police sent a detail of special officers to guard the non-union workmen.

A special car brought a score of strike-breakers from Omaha to Superior today.

### BUTTE MINES FORCED TO CLOSE; NO COAL.

(ASSOCIATED PRESS NIGHT REPORT.)

HELENA (Mont.) Dec. 2.—Lack of coal, due to the switchmen's strike, forced the Parrot mine of the Amalgamated Copper Company at Butte to close tonight. The Moonlight mine, Amalgamated property, will shut down tomorrow. The two mines employ 400 men. So long as the Oregon Short Line continues to operate, Butte will be supplied with fuel and other necessities and the other mines can keep open.

Two Northern Pacific freight trains left Helena for Missoula today. Otherwise, the strike situation shows no change.

The strikers derive much encouragement from a rumor that the heads of their respective brotherhoods have directed from St. Paul, Minn., the conductors to stop work if strike breakers are employed in the places of union switchmen.

At Missoula, Northern Pacific division officers worked in the yards today and by night had six trains of time freight for way stations made up by utilizing extra clerks in the division offices, a day and a night yard crew has been organized.

Passenger trains are running on time, and the Chicago, Milwaukee and Puget Sound continues to handle its regular business.

Traffic isolation for more than four or five days will mean a meat famine in Butte.

A division is noticeable in the sentiment of the members of the Brotherhood of Railway Trainmen. At Butte and Missoula they are acting with the strikers, but at Billings, in Eastern Montana, they remain at work. Twenty members of the brotherhood at Helena joined the strikers yesterday.

### TO START TRAINS ALL WAYS.

(ASSOCIATED PRESS NIGHT REPORT.)

MISSOULA (Mont.) Dec. 2.—Acting Superintendent M. W. Fowler, of the Northern Pacific, today announced that arrangements have been made to start local freights tomorrow morning in all directions over the Rocky Mountain division. One freight train is en route here today from Helena.

REMEMBER your eastern friends by sending them some of our special low prices. A list of our specials for this week. All in quantities of 12 or more. Free delivery. Ed. O'Connell, 123 South Main street. Home 10113.

## UNION'S UNDERHANDED ACT MAKING MILLIONS SUFFER.

(ASSOCIATED PRESS NIGHT REPORT.)

CHICAGO, Dec. 2.—The joint committee of railway managers issued the following statement today:

"The millions of people who will suffer by reason of the growing paralysis of the traffic of thirteen railroads entering St. Paul and Minneapolis and by the throwing out of employment of thousands of men engaged in mining, manufacturing and commercial business requiring railroad facilities, should know that this situation is due to the refusal of the membership of the Switchmen's Union of North America to abide by the proposed arbitration of differences."

"Calling of this strike, notwithstanding the managers' offer to arbitrate, violated the spirit of fair play which every American citizen must regard as a fundamental principle as between employer and employee. The proposed strike was a violation of good faith which led to the present condition."

"The transportation of perishable freight has become virtually impossible and the result cannot fail to be a hardship to the public. Every effort will be made to keep the transportation conditions to the normal at the earliest possible moment."

### UP AND DOWN THE VALLEY.

PITH OF THE NEWS FROM OUT THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Dec. 2.—[Exclusive Dispatch.] "Remember the fact that the wind switched to many quarters reasonable weather was not in evidence, and prospects for it not in the forecast. Today's maximum temperature was 49 and the minimum 44 degs. Middle West temperatures:

### GIVES LIFE TO SAVE WOMAN.

BY DIRECT WIRE TO THE TIMES. KENOSHA (Wis.) Dec. 2.—[Exclusive Dispatch.] Dennis Kelly, a pioneer watchman of Kenosha, met the death of a hero here this afternoon, giving his life to save a woman on a crowded street car.

Kelly was crossing in front of a fast train. Kelly saw her danger and shouted a warning. With the train only a few feet away, Kelly leaped on the track and threw the woman to the side of the railway. A second later he was struck by the engine and instantly killed. The trainmen found the dead body of Kelly sobbing as if her heart would break. She seemed to be all but demented and fled from the scene and has not been found since.

Dennis Kelly was one of the characters of Kenosha. He was a drayman in the city for many years, a man of high ideals and known to nearly every man, woman and child in the city. He is survived by a widow and one daughter.

### MISSOURI TIRES BEING SHOWN.

(BY DIRECT WIRE TO THE TIMES.) ST. LOUIS (Mo.) Dec. 2.—[Exclusive Dispatch.] The reason Gov. Hadley wants a new pickman for Missouri is because he has become weary on his travels outside of the State of the "Show me" line of conversational and banquet humor. A man well acquainted with the Governor, who has been along on some of his journeys, explained the situation today. "You can't blame Hadley," said his friend. "He has a strong sense of humor and he used to enjoy the 'show me' jokes and used them in his conversation and speeches. But since he has been Governor, he has found how easy it is to get too much of a good thing. Wherever he goes he has found it to be a moral certainty that the same old 'show me' will greet him. It is always on meeting after meeting. On another occasion he was told that the people of the town realized that the creamer could not be saved they bent all efforts to saving the home of Wesley Garlach, adjoining. A bucket brigade was formed and with 500 buckets of water they secured from the creamery, this building was saved. Had the fire communicated to the Garlach residence it is probable that the rest of the town would have gone."

### BARS SPOONING; GIRLS ANGRY.

(BY DIRECT WIRE TO THE TIMES.) DES MOINES (Iowa) Dec. 2.—[Exclusive Dispatch.] President Lorin D. Osborne's declaration that he will put a stop to the custom of spooning among the students of Des Moines College has threatened to result in a popularization of the school. At a meeting of the senior class this evening threats of several members to leave school was discussed. An effort will be made to induce President Osborne to soften his order that young men and young women students must not associate for

## NERVOUS WOMEN

Need Just This Tonic Treatment to Build Them Up.

The first thing to do when threatened with nervous trouble is to stop the cause of it, if possible, whether it is irregular living, worry, or whatever it may be. Then the nerves must be given special nourishment and the blood must be kept pure and rich. This is the only way to get rid of nervous trouble. Dr. Williams' Pink Pills and this is why the pills have been used with such great success in nervous trouble that did not yield to ordinary methods of treatment.

These pills are a tonic for both men and women but are especially adapted for girls and women of all ages, and give health and strength to the nervous and exhausted as is shown by the experience of Mrs. H. J. Bradford, of No. 1514 Spurgeon street, Santa Ana, Cal. She says:

"A few years ago I began to lose flesh rapidly until I weighed only about 100 pounds. Before that I had always been well and quite healthy. I also became very nervous and would lie awake all night long. I had frequent crying spells which I could not seem to help and which led to the least little thing would bring on. Excitement or noise made me very nervous. I had a craving for sour things but my appetite was variable. At times I would feel very well but this would be only when I kept very quiet."

"The doctor pronounced my trouble neurasthenia or nervous debility. I was under his care for over two years. Sometimes he would treat me regularly and then he might not have to call in two months. I did not get well under his treatment and was finally advised to try Dr. Williams' Pink Pills by a friend who had used them for nervousness."

After taking a few boxes of the pills I could sleep better and I began to improve gradually until I was cured. I haven't been troubled with nervousness in some years now and consider the benefit derived from Dr. Williams' Pink Pills to be wonderful."

Dr. Williams' Pink Pills contain the elements necessary to make new blood and, as the nerves get their nourishment from the blood, they are made available in a wide range of diseases of the blood and nerves, such as rheumatism, after-effects of the grip and fever, neuritis, nervous debility, St. Vitus' dance and various partial paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, for \$2.00 per box, six boxes for \$10.00, by mail order. Write to Dr. Williams' Pink Pills Co., Schenectady, N. Y.

**Kensington Apartments**  
New choice suites and vacant; winter rates. HOME PHONE-1044.

**THE BREAKERS** Long Beach. Quiet, pleasant rooms with table d'hôte. Breakfast best in the Coast. Open all day. Home phone 425.

**FLINT IS BUSY.**  
Senator Ir. Drafting Bills in Interest of Southern California Lemon Growers.

WASHINGTON, Dec. 2.—[Exclusive Dispatch.] Senator Flint is busy drafting several bills he intends to introduce in the Senate at Congress meets Monday. Important, perhaps, is one which will meet such cases as the increase in the wages rate on lemons. It will provide that the Interstate Commerce Commission shall have power to suspend any new higher rate until the Interstate Commerce Commission has had a full consideration of the reasonableness of it. This is somewhat on the lines of the Fulton bill, which failed to pass, but it contains an important amendment to the Fulton bill effecting the suspension of the rate. Senator Flint has been in consultation with several persons regarding it. It is understood that he will refer to this phase of rate regulation in his message and he will also recommend the operation of a court of commerce to handle railroad cases.

This will be in accordance with the wishes and recommendations of the Interstate Commerce Commissioners and at this time it would be especially valuable to Southern California as the jurisdiction of the circuit courts is circumscribed territorially, while a court of commerce would have jurisdiction as wide as the nation.

### SECRET WORKER

The Plan Upon Which Coffee Operates.

Coffee is such a secret worker that it is not suspected as the cause of sickness or disease, but there is a very sure way to find out the truth. A lady in Memphis gives an interesting experience her husband had with coffee. It seems that he had been using it for some time and was an invalid.

The physician in charge shrewdly suspected that coffee was the "worm at the root of the tree," and ordered its discontinuance with instructions to use Postum regularly in its place.

The wife says: "We found that was the true remedy for his stomach and heart trouble, and we would have gladly paid a hundred times the amount of the doctor's charge when we found how wise his judgment was."

"The use of Postum instead of coffee was begun about a year ago, and my husband is a strong, well man. He has gained thirty-five pounds in that time and his stomach and heart trouble have all disappeared."

The first time I prepared it I did not boil it long enough and he said there was something wrong with it. Sure enough it did taste very flat, but the next morning I followed directions carefully, boiling it for fifteen minutes, and he remarked: "This is better than any of the old coffee."

We use Postum regularly and never tire of telling our friends of the benefit we have received from leaving coffee out of our lives. Look for the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## The Times Branch Office and Free Information Bureau

531 South Spring St. Advertising copy, and Subscriptions.

THE TIMES FREE INFORMATION AND RESORT BUREAU is for the benefit of the public. It is a free service. Particulars are furnished regarding hotels, their rates, etc. Photographs, circulars and transportation literature are kept for inspection and distribution. Times readers can obtain free information that would take a week and in many instances longer to get if they were compelled to write for it.

## SPORTING NEWS, LOCAL AND TELEGRAPHIC.

SETTLED.  
M'CAREY LOSES  
TO TRICKSTERS.Richard and Gleason Given  
Fight Contract.Jeff and Johnson Agree on  
Battle Ground.Coffroth Believed to Be the  
Moving Spirit.

(ASSOCIATED PRESS NIGHT REPORT.)

CHICAGO, Dec. 2.—[Exclusive Dispatch.] Assuming that the Jeffries and Johnson fight will last forty-five rounds of three minutes each, with one minute intermissions, the earnings of the winner, exclusive of the big picture profits, as compared with the earnings of stage stars and royalty, the hourly income of Caruso, Lauder and Mary Garden being figured while actually on the stage would be: Jeffries or Johnson, \$22,666; John D. Rockefeller, \$3,440; Czar of Russia, \$2,632; King Edward, \$2,700; Caruso, \$600; Mary Garden, \$300; Harry Lauder, \$200.

NEW YORK, Dec. 2.—The fight for the heavyweight championship of the world, between James J. Jeffries and Jack Johnson, will be held in California, near San Francisco, on July 1, 1916, and will be staged by "Tex" Rickard of Nevada and John J. Gleason of San Francisco.

Their bid of \$100,000, and two-thirds of the moving-picture privileges to the contestants, was formally accepted in a stormy meeting at Hoboken, N. J., this afternoon.

Fight articles will be drawn up and signed there tomorrow. It is believed the fight will represent more cash than any other fight in the history of the ring.

Thomas J. McCarey of Los Angeles, whose bid was considered highest by many, made a game race for his Pacific Athletic Club, but his cause was without hope.

James Coffroth, by virtue of his control of the two basic patents on moving pictures, had secured against McCarey and his ally, Eddie Graney of San Francisco, and the fight was given to Gleason and Rickard, who, it is said by sporting men, have an understanding with Coffroth, a surprise strengthened by the fact that Gleason and Coffroth have shared one bid in the past.

McCarey and Graney estimate that the net value of the moving pictures will be at least \$200,000, and may be worth \$400,000. Rickard and Gleason declined to estimate.

After Lou Houseman of Chicago, as master of ceremonies, had finished meeting to order in a hotel at Hoboken, San Berger, Jeffries' manager, announced that his principal had decided for Rickard and Gleason. George Little, representing Johnson, made a similar announcement, and Stakeholder Bob Murphy was about to decline the matter settled, when McCarey arose to insist on reading the Rickard bid, in an effort to show that it was not the best.

MCCAREY SPUNKS UP.  
"I was induced to come across the continent," protested McCarey, "by the representation that everything was to be above board here. I find it otherwise. If my bid is not the best, then Eddie Graney's is. Graney's bid amounts, including pictures, to \$275,000 to the fighters."

"Well, I've been in this fight business longer than you have," spoke up Gleason, and he continued, when McCarey jumped to his feet and hurled his wallet across the long table, crying:

"There's at least \$250 that you haven't."

"But I have had bigger fights," persisted Gleason.

GAMBLING HELL  
OVER THE LINE.

(BY DIRECT WIRE TO THE TIMES.)

EL PASO (Tex.) Dec. 2.—[Exclusive Dispatch.] With race-track gambling in full swing and with the Fiesta of Guadalupe to open Saturday, a genuine "carnival of gambling" will reign in Juarez, Mex., just across the Rio Grande from El Paso.

Touche, the Turk, has erected larger gambling houses than ever in front of the bull ring and here French roulette in its original form, never seen before at the Juarez fiestas will make its bow to the gambling public.

There will also be a new arrival in Spanish monte and in addition there will be craps, poker, the old army game, and ordinary wheel games, only larger and more numerous.

Chihuahua promoters have secured the concession to sell liquors in the gambling pavilion for \$4000, and a Chihuahua woman has paid \$12,000, it is said, for all rights of the American dancing hall during the season. Juarez police are already cleaning up the town to prevent, if possible, a carnival of crime, while the other carnival continues.

The battle ground is life, and the economy of opinion is had, the contest will be held just outside the city limits.

The laws of California permit finish fights, but contrary to the belief, however, that owing to the tremendous importance of the battle, pressure may be brought to bear on the California authorities to waive all restrictions and grant permission to the promoters to hold an unlimited contest in San Francisco.

In such an event, it is generally understood, the hall ground park of the Pacific Coast League, located in Valencia street near Fourteenth, will be the scene of the battle as the grounds are controlled by John J. Gleason.

PLENTY OF SEATS.  
The seating capacity can be enlarged so as to accommodate approximately 20,000 or 25,000 persons.

On the other hand, there is an endorsement of opinion that an alliance has been effected with James W. Coffroth in which circumstances it is alleged that Coffroth's Mission-street arena, where nearly all of the important fights have been held, has been permitted without legal molestation to hold a mammoth amphitheater capable of seating 25,000 erected in its place.

View mentioned in the dispatches as a possible battle ground, is in Alameda county a few miles east of Berkeley, where the local laws prohibit the holding of finish boxing contests.

THE MAN BEHIND.  
As the sporting men of this city received private advices from the scene of the bids for the Jeffries-Johnson fight, the conviction grew that J. W. Coffroth was the man actually behind the offer made by Rickard and Gleason.

Instead of being depressed by the news from New York, the close associates of Coffroth were elated when they heard how the matter had been decided.

It is a well known fact that Coffroth since his connection with the so-called "fight trust" during the Schmitz regime, has been unable to secure a permit to conduct a fight within the limits of San Francisco, and for this reason he constructed his Sunshine arena over the line in San Mateo county.

Until lately, Coffroth was on good terms with the Supervisors of the neighboring county, but some friction developed when he headed his application for a permit and it is not believed that his troubles in that direction have been patched up. For these reasons, the sporting men here contend that while Coffroth will remain the power behind the throne in the coming fight, his name will not appear as co-incidentally connected with the affair.

It is no longer a secret that a strong effort will be made to have the incoming administration repeal the ordinance which forbids the holding of fights of more than twenty rounds in this city, and it is expected that there will be little trouble in doing this if Coffroth's name is not too prominent.

It is said here that before going East Coffroth had practically secured pledges for the sale of \$100,000 worth of tickets to the fight providing the battle is held within the city limits.

COMING EVENTS  
MOTORCYCLES  
ON THE MOVE.Los Angeles Club Meet Has  
Large Entry List.Ascot Park Made Fast for  
Daring Bikers.Motor Car Six-Hour Race  
Lists Close Soon.

Ascot Park is in shape for the motorcycle races today. The light rain of yesterday added the work of the men who are leveling the turns, and the course looks good. It is right for a motorcycle, and dirt-track records may be smashed Sunday afternoon.

Members of the Los Angeles Motorcycle Club are working hard to make the meet a success, and as a result the entire club membership has promised to turn out for the race.

Motorcycle riders are agreed that work on a dirt track is dangerous. They say the element of danger is greater on the Ascot Park course than on the Coliseum track, even though the time made is not so fast. The Ascot races are as spectacular as any held and there is also the thrill of danger when it comes to racing wheel to wheel for miles.

Howard Shafer, one of the motorcycle riders who figured for championship honors at Ascot, is to ride Sunday. Shafer has been on the police force for some time and is out of practice. He has been riding a motorcycle every day for a week, however, and says he is in trim.

Irwin Knappe, the boy who won hardly at Redlands, is to ride. He has been out every day and is showing in fine form. Knappe has always given a good account of himself.

Al J. Graves is to ride. He is a winning steady of late and should be one of the prize winners in the Sunday meet. He is a short, stocky fellow who does not put on show. He sits his wheel steadily and is particularly forming his Coliseum record.

Paul Derkum is to figure among the professionals. Derkum says he expects to become an automobile driver and that this coming race is to see his finish in the motorcycle game.

Several of the riders who are performing in the Ascot races are well known to appear. Lingenfelder is always popular and rides well. The Ascot races are expected to be well attended and are to be run off quickly. The Los Angeles Motorcycle Club is to have the race.

The Los Angeles Motorcycle Club is the largest organization in the United States. The officials of the club have worked hard to make the race a success. The weather here now and Sunday the course should be ideal.

SIX-HOUR RACE.  
ENTRIES TO CLOSE TOMORROW.  
Entries for the six-hour motor derby at Ascot Park a week from Sunday close tomorrow night. The Buick was added to the list yesterday, and before tomorrow it is expected that at least twelve owners will have signaled their intention of starting.

With twelve cars in the race the meet should be one of the best ever held at Ascot. The Apperson is the favorite in the race, but other entries are coming in with every mail, and by the time the last bid is received the list should include a number of fast cars.

George Kussman has planned to be out on the track Monday with the Pullman. George is to make an earnest bid for the race. The Pullman took second place in a fifty-mile race, in which the Franklin broke the Coast record.

The Franklin will not be in the meet. Ralph Hamlin is afraid to take another chance. A hoodoo seems to hang over him in the last Longhairs Athlete car plunked through the fence, and Guy Irwin has had narrow escapes. Ralph says he has had enough, at least for the present.

LEE'S CADILLAC.  
Don Lee is to be on hand with the Cadillac. The classy little runner is being stripped again in preparation for the long run. The Cadillac has always been a consistent performer and should be heard from in the Ascot race. Walter McKeague is to drive.

Walter Vail is awaiting the decision of the A.A.A. contest board regarding his status. Vail did not appear on the Ascot course when the Corbin and Pennsylvania race was scheduled. He may be ruled out of the course for life. If the decision is favorable he expects to enter the six-hour race.

TWO SCHEDULED.  
ARRANGING RUGBY GAMES  
IN CLOSING THE SEASON.

HARD Rugby practice every day this week has been the schedule for the L. A. High football squad, in anticipation of the game with Redlands Saturday. As Redlands tied with Polytechnic in the last game played between the two schools, and tied with Los Angeles High on Thanksgiving Day, the game will be watched with added interest, as affording a final chance to size up the relative merits of the L. A. and Polytechnic teams.

A series of injuries, Barman, Hodges and Boyle of the regular team have dropped out of Saturday's probable line-up, while Rivers, wing, is away on a hunting trip, and may not return to the city in time to play. Barman twisted his ankle severely in Tuesday's practice. Hodges was injured some time ago, and was operated on yesterday, and Boyle has a severe attack of grippe. This will put in Howard and Conner, the probable wings, for the Redlands game, with Morrison going back into the scrum and Peckham filling the other vacancy.

Both L. A. High and Polytechnic are still carrying on negotiations with Santa Clara High School, Rugby champion of the northern part of the State, for a series of games to be played in Los Angeles at the end of the year. The plan is to have the northern players one game with each of the two city teams, and possibly with the Redlands aggregation as well.

In preparation for the game that may possibly be played against the northerners, Polytechnic has arranged to play the Castaways on Saturday, December 11. Fiesta Park was definitely secured for the game at a meeting of the respective managers, with Manager Pickering of the Fiesta Park grounds yesterday afternoon. The Castaways expect to play their strongest line-up, and to some extent regain the laurels lost at the October match with Stanford. The backfield probably will be composed of Lewis and Healy, halves; Holmes, Best, Edwards and Davies, full. The scrum will be practically the same as in the game with Berkeley. With this aggregation the Englishmen should have little difficulty in winning from the school-boys.

The "A" and "B" teams of the Polytechnic senior class played at Fiesta Park yesterday afternoon, the "B" team winning by a convincing goal. This afternoon the second teams of Polytechnic and L. A. will line up at Fiesta for their third game of the season. Each team is credited with one of the games already played.

MOTOR BOATMEN PROTEST.  
Say Bill Before Congress is Too Drastic and Sweeping in its Provisions.  
(ASSOCIATED PRESS DAY REPORT.)  
NEW YORK, Dec. 2.—Delegates from most of the motor boat organizations in the United States, representing more than 100,000 owners and users of power boats, met here yesterday to protest against the adoption by Congress of proposed drastic laws for the regulation of motor craft.

Commodore C. W. Kotcher of Detroit presided at the meeting. A petition was drawn up which will be presented to Congress, declaring that the Humphrey bill now before the House of Representatives is too sweeping in its provisions and should not be enacted.

Teams Withdraw.  
The Dyas-Clines and Turf-Lyon ball teams of the Southern State League are to withdraw from the local organization at another meeting of the league to be held tonight. The cause for the split-up is the disagreement over selection of balls. Some of the teams insist on using an alleged inferior ball, which the protesting teams claim is too poor to permit of good batting averages. It is possible the withdrawing teams will organize a new league.

Big Leaguers Again.  
Arrangements have now been completed for the appearance of the Philadelphia and the All-National baseball teams at Pasadena on Saturday of next week, the teams to play in this city the following day. There are to be only two games here, the teams to play against each other.

FRANK G. CARPENTER'S letter in the Times Magazine last week, in which he said that he had interviewed with one of the great officials of China.

MOROSCO NOW  
BIG FIGURE.

Local Manager Is Head of  
New Combine.

Chain of Theaters Planned  
for the West.

Contracts for Many Plays  
from Metropolis.

Mr. and Mrs. Oliver Morosco re-  
turned from New York yesterday. Mr.  
Morosco left here November 1, and  
during his absence has perfected one  
of the biggest theatrical combines in  
the history of the country.

He is now in active cooperation with  
Francis Belasco of San Francisco.

pany was sent on the road last week.  
"St. Elmo" has just broken all records  
in Cleveland, O.

SELWYN'S NEW PLAY.  
"About February 1 I will give the  
first production of a new play by Ed-  
gar Selwyn, under Mr. Selwyn's direc-  
tion. He may play in the piece. In  
fact, this is quite probable. I will  
also 'try out' a new play by Frances  
Matthews, 'The Conspiracy,' a play  
called 'The Sugar Trust,' and several  
other places.

"We have returned to California  
with an absolutely exclusive call on  
the output of Eugene Walter, whom many  
consider the long-awaited 'great Amer-  
ican playwright.'

"Among the novelties I have sched-  
uled for production is 'The Barba-  
rians,' a sensational drama of modern  
Chinese life.

"I have secured for next season  
include 'The Man from Home,' 'The  
Fourth Estate,' 'Mrs. Wiggs of the  
Cabbage Patch,' 'The Eastest  
Way,' 'Is Matrimony a Failure?' 'The  
White Sister,' and Henri Bernstein's  
'Israel,' and 'Samson,' never seen in  
the West.

"For more immediate use I have at

Morosco and His New Stars.

Los Angeles manager who returned from New York yesterday as head of huge  
western combine, Francis Belasco, new leading actress for his local  
company, and Ethel von Waldron, his new ingenue.

my have at present the Burbank  
theater here, and the Alcazar in San  
Francisco, for stock purposes, and  
then six or eight months will estab-  
lish a chain of stock theaters through-  
out the West. Mr. Morosco states  
that this chain will be the greatest  
series of stock theaters in the world.

of the Mississippi. They have  
made an option on a new theater in  
New Orleans, and have made  
arrangements for an  
theater in California, and will  
open stock theaters in Port-  
land, Seattle, Denver and Salt Lake  
City.

THIRD 'EM UP.  
Much here prospects, of course, give  
managers a great deal of pre-  
ference in the selection of plays, and  
this point Mr. Morosco said: "We  
only to have tied up abso-  
lutely the best plays of the country,  
and we have secured options even  
on the future output of producers  
in stock, plays that cannot be  
produced elsewhere outside of regular  
theater productions.

"In order to do this we had to pay  
out in many instances, and at large  
sums. Mr. Morosco and I went down  
to New York, and in actual  
production, with \$30,000 in actual  
advance money—but we secured  
it all."

"I can best illustrate this with our  
purchase of the rights to 'Brewster's  
Breed,' and in our theaters. I  
must mention that it would not be  
impossible to put for stock at present  
anywhere outside of regular the-  
ater productions.

When the  
Stomach Stops  
Working Properly, Because There is  
Wind in It, Use Stuart's Dyspepsia  
Tablets to Set It Going Again.

A trial Box Free.

THE DOCTORS call it flatulency,  
but unprofessional folks know it as  
"wind on the stomach," and a most  
distressing state of things it is. It is  
a serious condition of this great or-  
gan. Always annoying and pain-  
ful in the extreme, at times often  
leading to bad and fatal results. The  
stomach embarrassed and hampered  
with wind, cannot take care of its  
food properly and indigestion follows,  
and this has a train too appalling to  
enumerate. The entire system is im-  
plicated—made an active or passive  
factor in this trouble, and life soon  
becomes a questionable boon.

ALL THIS IS EXPLAINED in doc-  
tor books; how undigested food causes  
gases by fermentation and fomenta-  
tion in which process some essential  
fluids are destroyed—burnt up, waste-  
d by chemical action, followed by de-  
fective nutrition and the distribution  
through the alimentary tract of chemi-  
cally wrong elements and as a con-  
sequence the stomach and entire sys-  
tem is starved. Plenty of food, you  
see, but spoilt in preparation and  
worse than worthless.

A DERANGED STOMACH is the  
epitome of evil; nothing too bad to  
emanate from it, but the gas it pro-  
duces is probably its worst primary  
effect and the only way to do away  
with this is to remove the cause.

STUART'S DYSPEPSIA TABLETS  
go to the root of this trouble. They  
attack the gas making foods and ren-  
der them harmless. Flatulency or wind  
on the stomach simply cannot exist  
where these powerful and wonder-  
working little tablets are in evidence.

THEY WERE MADE for this very  
purpose to attack gas making foods  
and convert them into proper nutri-  
ment. This is their province and of-  
fice. A whole book could be written  
about them and then not all told that  
might be told with profit to sufferers  
from this painful disease, dyspepsia.

It would mention the years of patient  
and expensive experiment in effort to  
arrive at this result—of failure innum-  
erable and at last success. It would  
make mention of the different stom-  
ach correctives that enter in to this  
tablet and make it faithfully repre-  
sent all.

STUART'S DYSPEPSIA TABLETS  
are not alone intended for the sick,  
but well folks as well; for the person  
who craves hearty foods and wants to  
eat heartily and run no risk of bad  
effects, they act like a charm and  
make eating and digesting a pleas-  
ure and pleasure. They keep the stom-  
ach active and energetic and able and  
willing to do extra work without spe-  
cial labor or effort. Don't forget this.  
Well people are often neglected, but  
the STUART DYSPEPSIA TABLETS  
have them in mind.

A FREE TRIAL PACKAGE will be  
sent any one who wants to know just  
what they are, how they look and  
taste, before beginning treatment with  
them. After this go to the drug store  
for them; everywhere, here or at  
home, they are for a box, and by get-  
ting them at home you will save time  
and postage. Your doctor will pre-  
scribe them; they say there are 40,000  
doctors using them, but when you  
know what is the matter of yourself,  
why go to the expense of a prescription?

For free trial package, address  
F. A. Stuart Co., 150 Stuart Building,  
Marshall, Mich.

P.S.—Better send today for samples  
of the tablet. You will get quite a  
box of them.

country," said he, "and, believe me,  
there is none to compare in efficiency  
with Mr. Blackwood's, or our own at  
the Burbank."

"I have no idea of right," he con-  
tinued. "We will go our way, and the  
other house, with its excellent  
company, will go its way. Mr. Belasco  
has withdrawn entirely from that or-  
ganization."

"I am glad to be at home, glad to  
be in time to vote for Smith and a  
progressive town, and for those Coun-  
cilmen who took the lid off the height-  
of-buildings ordinance, and as well ve-  
ted the movement for Sunday closing  
of places of amusement. We are still  
behind in the matter of electric signa-  
lizing, and we have those who would  
establish our own Great White Way,  
and they would really add to the bril-  
liance and beauty of the streets at  
night."

Mr. Morosco forecasts some changes  
and enlargements in his local company  
which he says will make it, early in  
1910, "the foremost stock organization  
in existence."

The coming Midwinter Number of  
The Times will be more lavishly and  
beautifully illustrated with attractive  
pictures of the Southwest than it  
has been possible to make any of its  
predecessors. All the folks in the  
old home will be delighted to get  
copies. Send in your addresses in  
advance.

NOVEMBER CIRCULATION  
OF THE TIMES.

The following are the sworn state-  
ments of the circulation of The Times  
for November, 1909:

STATE OF CALIFORNIA, COUNTY OF LOS  
ANGELES, ss.  
Harry Chandler, Assistant General Manager  
of Los Angeles Times, being duly  
sworn, deposes and says that the following is  
a true and correct record of the circulation  
of said newspaper for the month of November,  
1909:

| NOVEMBER, 1909. |          |
|-----------------|----------|
| 1.....          | \$1,440  |
| 2.....          | \$1,440  |
| 3.....          | \$1,440  |

| 30.....         | \$1,440  |
| Total.....      | \$43,200 |

Showing an average daily GAIN over  
the corresponding month of 1908 of  
\$1,440.

Assistant General Manager, The Times,  
Subscribed and sworn to before me this 30th  
day of November, 1909.

T. J. CHAPIN,  
Notary Public in and for the County of Los  
Angeles, State of California.

A. L. DENNIS,  
Superintendent of Circulation, The Times,  
Subscribed and sworn to before me this 30th  
day of November, 1909.

T. J. CHAPIN,  
Notary Public in and for the County of Los  
Angeles, State of California.

When the  
Stomach Stops  
Working Properly, Because There is  
Wind in It, Use Stuart's Dyspepsia  
Tablets to Set It Going Again.

A trial Box Free.

THE DOCTORS call it flatulency,  
but unprofessional folks know it as  
"wind on the stomach," and a most  
distressing state of things it is. It is  
a serious condition of this great or-  
gan. Always annoying and pain-  
ful in the extreme, at times often  
leading to bad and fatal results. The  
stomach embarrassed and hampered  
with wind, cannot take care of its  
food properly and indigestion follows,  
and this has a train too appalling to  
enumerate. The entire system is im-  
plicated—made an active or passive  
factor in this trouble, and life soon  
becomes a questionable boon.

ALL THIS IS EXPLAINED in doc-  
tor books; how undigested food causes  
gases by fermentation and fomenta-  
tion in which process some essential  
fluids are destroyed—burnt up, waste-  
d by chemical action, followed by de-  
fective nutrition and the distribution  
through the alimentary tract of chemi-  
cally wrong elements and as a con-  
sequence the stomach and entire sys-  
tem is starved. Plenty of food, you  
see, but spoilt in preparation and  
worse than worthless.

A DERANGED STOMACH is the  
epitome of evil; nothing too bad to  
emanate from it, but the gas it pro-  
duces is probably its worst primary  
effect and the only way to do away  
with this is to remove the cause.

STUART'S DYSPEPSIA TABLETS  
go to the root of this trouble. They  
attack the gas making foods and ren-  
der them harmless. Flatulency or wind  
on the stomach simply cannot exist  
where these powerful and wonder-  
working little tablets are in evidence.

THEY WERE MADE for this very  
purpose to attack gas making foods  
and convert them into proper nutri-

BRAVE IN SUFFERING.

Miss Dickinson Passed Away After a  
Year's Illness in Which She Makes  
no Complaint.

Miss Martha Dickinson, a daughter  
of George W. Dickinson, died at the  
home of her parents, No. 423 Andrew  
boulevard, Wednesday. She was a suf-  
ferer from tuberculosis more than a  
year.

A member of the graduating class  
of 1908 in the Girls' Collegiate School,  
Miss Dickinson was forced to with-  
draw a few months before the close  
of the term on account of her illness.

She bore her suffering bravely and  
never complained.

Miss Dickinson was born in San  
Diego. She came to Los Angeles ten  
years ago. Her age was 21.

The funeral will be conducted at the  
family residence at 2 o'clock, today by  
Rev. Baker P. Lee.

Piles Cured 1 to 14 Days.

Pain Outraged is guaranteed to cure any  
case of itching, blind, bleeding or protruding  
piles.

Now Believe in Prayer.

Eight Entombed Miners, All Non-Pro-  
fessors, Protest Conversion to  
Christianity Upon Rescue.

[BY DIRECT WIRE TO THE TIMES.]  
KNOXVILLE (Tenn.), Dec. 2.—[Ex-  
clusive Dispatch.] Many fervent pray-  
ers of thanksgiving went up from Dick-  
ers of the Tennessee Copper  
Company had been found, and that all  
were alive. The entombed men an-  
swered the loud calls of the rescuing  
parties about midnight, and three  
hours later they were assisted to the  
mouth of the mine, there to be greeted  
by their loved ones.

The eight men who found them-  
selves cut off from the outside world  
on Monday afternoon, not one was a  
professed Christian prior to entering  
the mine, but all of the eight engaged  
in earnest prayer on realizing their  
plight. All way they intend to join

shippers, who did protest successfully before the Interstate Commerce

The gift to the California lumbermen will exceed in amount the \$100,000 donated by the Northern Pacific, made the announcement and advised the shippers immediately after the meeting.

The intention of the company stated when Examiner George Brown, of the Department of Commerce, called off the suits for funding brought against the Southern Pacific.

**TAKES LOCAL FREIGHT.**

**NOT READY FOR PASSENGER**  
STOCKTON, Dec. 2.—[Exclusive.] The Western Pacific opened its Stockton depot yesterday for business between local points, but not accept freight for out-of-town shipments until January 1, owing to the non-arrival of freight. Two of the latest build of 10-to-12-ton flat cars, which have been having been brought from Fort Worth by the conductor J. C., who is distributing the rolling stock, will be ready to go into service at once. Three engines are here to operate northward, and it is expected that they will be spring before passenger will be commenced, as there is no reason why the road cannot handle traffic for handling passengers. The company in the meantime handle transcontinental freight through the existing tracks, and has placed for all steel passenger coaches and it is claimed that when the new trains come they will be the best of the trains will be the finest West. The roadway from Oakdale to Sacramento has been well improved.

**'FRISCO ELECTION.**

**NEW OFFICERS NAMED.**  
ASSOCIATED PRESS NIGHT NEWS  
NEW YORK, Dec. 2.—[Exclusive.] The Chicago and North Western Railroad Company today elected following new officers: C. H. Nixon, vice-president and general manager; A. Douglas, vice-president and treasurer; and J. W. Smith, president and purchasing agent.

**Telegraphers Ask Increase.**  
CINCINNATI, Dec. 2.—[Exclusive.] The telegraph operators in the entire Big Four Railroad district today met in conference with the management to discuss their wage scale. The operators asked advance of from 15 to 20 per cent.

**Manager Named.**  
CHICAGO, Dec. 2.—Hiram J. Allen, recently general manager of the Erie Railroad, has been appointed manager of the Chicago Great Western Railroad, effective December 1st, announced yesterday. The Western has had no general manager since its reorganization September 1907.

**New Alaska Steamer.**  
WINNIPEG (Man.) Dec. 2.—[Exclusive.] The Canadian Pacific Railroad had let contract in England for the construction of two new steamers to be used in the trade with Alaska. They will cost \$250,000 each and will be completed in 1911.

**Searsboro Election.**  
NEW YORK, Dec. 2.—N. S. K. was elected president of the Searsboro Electric Light & Power Co. today. C. H. Nixon, vice-president and general manager, and C. R. Cappa, vice-president in charge of traffic.

**SCIENCE NOTES.**

**New Quadruplex Instrument.**  
Steven D. Field, nephew of Captain Field, of the U. S. Navy, is himself the inventor of a quadruplex instrument with which messages may be sent over selected wires connected in pairs. It has hitherto been possible to send one message at a time over a pair of wires. The instrument consists of four cables between Key West and Key West, a distance of 10 miles.

**An Electric Barometer.**  
In the novel barometer of F. T. Schmidt, as described to the Royal Society, the readings of the barometer are taken from a galvanometer which gives greater sensitiveness than the ordinary type. The instrument consists of a V-shaped carbon filament sealed in the vacuum of the arm of the ordinary barometer. This filament is connected with a sensitive galvanometer and battery cells giving a constant current. The rise of the mercury in the tube causes the filament to vibrate, that is promptly indicated by the galvanometer. The apparatus changes the pressure of the atmosphere and the galvanometer is so graduated as to give the arithmetic pressure without calculation. The sensitivity of the system is such that atmospheric pressure is changed second to second, indicating the air flows are constantly passing.

**Wireless Telephone on Trains.**  
Experiments recently conducted on an Erie train running thirty hours, between Newark and Paterson, New Jersey, showed that telephony can be successfully employed for moving trains. The invention system, known as the "Erie" system, is capable of conversion to other uses. It is operated by means of a small transmitter and receiver located at the side of the track. The system, it is said, is capable of being used for communication between locomotives and other devices when a train is stalled or delayed. The system also shows there is a stilled or delayed train. The system is now being tested on the Erie road officials pronounce it a magnificent success.

**New Turbine Engine.**  
Count Frederic I. Bright, director of the Italian patent office, states that an Italian engineer invented a reversible turbine engine. The advantages claimed for the engine are that it is capable of breaking or getting out of order. "It will work with equal power in either direction," he says, "and that it can be built from five horsepower to ten horsepower." It is reported that the engine is being tested by prominent Italians in London.

**An Electrical Gun.**  
A Scotch engineer named James Watt has invented an electrical gun. The gun is capable of projecting 30,000 feet a second projectiles of all dimensions, and is nothing to prevent it and it is claimed that it is capable of shells from London to Paris, or from Paris to London. The gun is fired by electricity and the rate of thousands of rounds per minute. The gun will throw a projectile 400 to 600 yards without either flash or recoil. He has not, naturally, constructed a model of the gun, but tells us that his electric gun is different in shape from an ordinary gun. It is a long, thin cylinder, and it is powered and that the gun is propelled at such an alarming rate that the ordinary cartridge would be useless.

## NEWS AND BUSINESS.

**Free Bible Lecture.**  
 Mark Lev, who has been lecturing at the Young Men's Christian Association for some weeks, will speak tonight on "Dispensation Truth." Both men and women are invited to hear him. Will Talk About War.

Rabbi Isidore Myers will take for the subject of his address this evening, in the Sinai Synagogue, "The Jewish and American War: A Study of the Division and Authority of the Bible."

Spanish Supper and Bazaar.

The ladies of the First Congregational Church will hold their annual bazaar this afternoon and evening, in the social room of the church. A Spanish supper will be served from 5:30 to 7 o'clock.

Immanuel Church Bazaar.

The bazaar to be conducted by the ladies of Immanuel Presbyterian Church will open this afternoon in Ebel Clubhouse, and will close on Saturday night. Supper will be served this evening and there will be a special entertainment for children tomorrow afternoon.

**Purity Conference.**  
 A purity conference will be held in the First United Presbyterian Church this afternoon and evening. A number of addresses will be delivered in the afternoon, and in the evening the chief speaker will be Mrs. Viola D. Romano, national lecturer.

**Southwest Society's Meeting.**  
 The annual meeting of the Southwest Society of the Archaeological Institute of America will be held this afternoon at 4 o'clock at the museum rooms, sixth floor, No. 321 Wing Eighth street, Hamburger building. Reports of the year's progress will present many striking features.

**Valuable Linen Stolen.**  
 A grip containing table linen valued at \$15 was stolen from O. Cunningham's buggy, which he left standing on Twenty-second street, between Harvard boulevard and Figueroa street yesterday. The stolen cloth consisted of six sets of cloths and napkins, two table cloths, three dozen napkins and two center pieces.

**Cosmopolitan Reception.**  
 Thirty-one States and eleven foreign countries were represented at the reception tendered last night by the Young Women's Christian Association to members who were enrolled during the fall months. California was named the banner State, having the greatest number of representatives present. Over 400 guests were in attendance. An entertaining programme of music, readings and songs was enjoyed.

**Roosevelt Camp Elects.**  
 At a meeting of Roosevelt Camp No. 9, Spanish War Veterans, last evening, the following officers were chosen: Commander, Capt. J. D. Fredricks; senior vice-commander, W. B. Heinicke; junior vice-commander, W. W. Cooper; chaplain, C. G. Castien; officer of the day, E. W. Peckham; officer of the guard, W. A. Wadsworth; surgeon, Dr. H. W. Seagar; trustee, James R. Shaver.

**To Give Two Readings.**  
 During the latter part of this month two readings will be given by Mrs. Harriet R. Labadie, the well-known dramatic reader, under the auspices of the Y.M.C.A. The subjects will be "The Servant in the House" and "The Doll's House." Mrs. Labadie is making a tour of the world. Miss Ida B. Allison, her business manager, now in the city, is the young lady who two years ago defeated the government in a celebrated Indian lawsuit which was carried to the Supreme Court.

**Pathetic Santa Claus Letters.**  
 Postmaster Flint is daily receiving pathetic letters from children who beseech "Santa Claus" to send them something for Christmas. All appeals for aid will be personally investigated by nobles of Al Malibah Temple, Mytic Shrine. Bishop & Co. has donated 200 sacks of candy and more will be purchased by the Shrine committee. Great preparations are in progress for the charity ball to be given at Shrine Auditorium the night of the 17th inst. The proceeds will be used for the purchase of supplies for needy families.

**Herr Tied.**  
 Fred Herr, the retiring passenger and freight agent of the Union Pacific, when he left the service of the road yesterday to assume the general agency for the Pacific Coast of the St. Paso and Northwestern system, was given a surprise by his railroad friends in this city and Southern California. A number of these visitors, Herr and J. H. Fearman, for the donors, presented him with a handsome watch appropriately inscribed, C. E. Ensign, city ticket agent of the Union Pacific, has been made passenger agent, succeeding Herr. He has been with the Union Pacific thirteen years.

## LETTERS TO THE TIMES.

[The Times freely publishes the views of correspondents without holding itself responsible for writers' opinions. The paper writes dispassionately and the writers are held to account of their own.]

**"Goo Goo."**  
 LOS ANGELES, Dec. 2.—[To the Editor of The Times:] We hear a good deal through the morning "Herald" and the twilight twinkler in regard to the great prosperity of Los Angeles. Since the beginning of the wonderful recall administration of his acendency, "Uncle Aleck" haven't they forgotten to mention how our babies have grown and fattened during the same time, and have learned to say "Goo Goo" much earlier in life than formerly? The organists seem to be hard pushed for argument. In charity please give them a hunch "lest they forget."

Yours for Smith, a sane city government.  
 C. M. TURNER.  
 No. 2648 West Pico Street.

## BIRTHS, DEATHS, MARRIAGES, DIVORCE.

## In Memoriam.

[Under this caption the Times will accept for publication, at its regular rate of 5 cents per line, obituary notices of persons deceased.]

**Other Supervisors.**

Mayor Alexander's career as the "re-"  
member of the late Board of  
Supervisors was discussed last night  
at a political rally held at the  
Central avenue and East  
ma street.

A speaker gave an amusing ac-  
count of the way Uncle Aleck used to  
be around in front of the grand  
and make motions like a re-  
ma.

A peculiar way in which the boun-  
es of the Supervisorial districts are  
gave rise to a situation ridicu-  
lous enough to put into a novel.  
The districts—except Alexander's  
in the country and included small  
ranches, immense stretches of  
land and all kinds of variegated  
scenery.

For instance, represented  
superior a district, one end of  
lay in Long Beach, where there  
were vine, and they like laws  
are bias; the other end lay in  
Monterey, with San Pedro as a  
station.

Superior Patterson had a district  
in included the blind penguins along  
the Fernando road and the Pres-  
ent settlement that lies around  
Central College. Imagine trying to  
be both elements.

ander, on the other hand, had  
district which lay wholly within the  
city.

had absolutely no responsibility,  
district was entirely governed by  
City Council. He had no say in  
the problem; he hadn't any bridges  
to after; he hadn't any roads to  
to get rid of them for what  
I will, therefore, sell

**The Pale Boss.**  
**Meyer Lissner and His Methods.**  
**A Character Study.**

**BY THE LANCER.**

Most political bosses are either bluff,  
forceful, rough-and-ready men with a  
good deal of the primitive vigor of  
their make-up, like Charley Murphy;  
or suave, wheedling persuasive rogues  
like Abe Ruef. Meyer Lissner is neither  
of these.

Meyer Lissner is a pale, sardonic  
young man, with thin lips that curl  
into a perpetual smile. He does politics,  
not with men and politicians, but with  
a file cabinet on smooth, silent ball-  
bearings, and little indexed cards.

If Lissner had been a soldier, he  
would not have liked old-fashioned war  
with horses and flashing sabers and  
the battle cries of the soldiers; he  
would have liked the war of today  
with mathematics and tiny mapped  
squares and electric buttons and dy-  
namite mines.

Lissner is, in fact, a curious anomaly—  
a born boss and dictator, but a  
man who is unpopular, even disliked  
by those whom he almost ruthlessly  
commands.

The present city campaign has ex-  
hibited these curious features in a  
most interesting way.

The superstition that Lissner is a  
sort of political wizard of supernatural  
acumen is not based upon the facts.

Where Lissner shines as a politician  
is not as a tactician. In the inside  
political circles, the tell of his  
amusing coups that have been "put  
over" on the "Pale Boss."

Perhaps the funniest trick on Liss-  
ner was by Mayor Alexander when  
Lissner tried to dismiss the old man  
and send him back into obscurity with  
a nod and a wink.

Lissner refused to retire and won a  
wily fencing match against the boss,  
forcing Lissner to swing the Silk Sock  
support in behind him again.

Lissner is sometimes caught in ridicu-  
lous situations that would have been  
avoided by a more wily politician.  
After all this emotion on the part of  
the Silk Socks in protesting with  
frenzy against pre-primary conven-  
tions as a thing of horror and vice,  
Lissner goes to Oakland and springs  
upon the assembled Lincoln-Roosevelt  
bosses an elaborate programme for a  
city convention in State political  
affairs.

But at every line of political organi-  
zing, and cold-blooded state-making,  
Lissner is like a cat.

He has a peculiar genius for rapid-fire "sys-  
tem" that has to be maintained in the  
midst of confusion and seeming chaos.

In a general way, he follows the po-  
litical battle methods of Frank Hitch-  
cock, the card-index political manager.

The whole "inwardness" of Lissner's  
system is not known even to his own  
lieutenants, for he trusts no one. But  
roughly speaking, his plan of card in-  
dexing is like this:

He has a card for every voter whose  
name is to be found on the great reg-  
ister. These are arranged alphabetically  
in two groups. In one group are  
the names of those who are known to  
be on Lissner's side; in the other group  
are those known to be opposed; and  
those who are regarded as doubtful.

Those in the doubtful list are given  
special attention. The Pale Boss or  
some of his assistants find out all they  
can about these doubtful voters; par-  
ticularly, do they find out who, among  
the faithful, is like this:

He has a card for every voter whose

the city manager apportions out the  
work to various precinct commit-  
tees, one manager for each precinct.  
To a very large extent, the political  
boss has to depend blindly upon these  
men.

Every day, these precinct managers  
report to the boss how many votes  
have come over and how the fight is  
going. He has to depend upon their  
honor and their intelligence. If one  
of them turns traitor, he is able to  
inflict a fearful blow.

In such a system as Lissner's, the  
boss is virtually independent of the  
data collected by these men. He can  
"fire" them bodily; or transfer them or  
shift his machine as much as he likes.  
No one can leave him in the lurch as  
far as data are concerned. He has his  
cards.

Furthermore, this cold card index,  
with its almost chaotic array of  
names, acts as a check on the exuber-  
ant hot air of the ward workers. To  
a very great extent, the boss with the  
index can tell whether he is fooled or  
not. With his index, he is able to tell,  
at a glance, whether he is receiving  
genuine reports on individual voters.

Every man to his own line of fight-  
ing. Some politicians couldn't do any-  
thing with a card index. It's too cold  
and heartless. His strength as a  
politician is due to his instinctive con-  
trol and power over men.

With a boss of this character, the  
old plan of dealing with the army of  
precinct captains is more inspiring. A  
man like Murphy knows which ones to  
wheel; which ones to bully; which  
ones to threaten; and which ones to  
buy outright. He can inspire them to  
enormous efforts. A card index is not  
for a boss with real compelling person-  
ality.

The card index is exactly suited to  
Lissner's analytical mind and his cold,  
unemotional nature. He has no power  
over men in the ordinary sense.

It is commonly admitted that he is  
disliked by those to whom he gives  
orders. He is not only chilling, but  
he is cutting and bitterly sarcastic—  
even abusive.

The precinct workers always come  
out willed after an interview with the  
Pale Boss. They dread and fear him.  
They usually find out that Lissner,  
with his marvelous grasp of detail,  
knows more about their precincts—  
who their friends and their opponents  
are—than do themselves. He seems to  
delight in showing them this and in  
"sitting on them."

As an evidence of his harsh disci-  
pline, the story is told about the Silk  
Socks headquarters that some college  
boys, whom the boss had employed as  
ward workers, met "Doc" Howton on  
the sidewalk, a few nights ago, and,  
for a joke, began to cheer him. Liss-  
ner heard of the incident and dis-  
charged every one of them.

At the same time, the boss is admitted  
all that in his dealings with his pre-  
cinct captains, Lissner spends immense  
sums of money judiciously and ef-  
fectively.

At intervals during every political  
campaign, the public has a chance to  
see Lissner at his job of bossing.  
He personally supervises the meet-  
ings, such as the session of the Silk  
Socks, when they refused to endorse a  
City Council. His demeanor on such  
occasions is a good index of his meth-  
ods. When he has an idea that some  
one may bob up with an undesirable  
sentiment, or try to make a speech out-  
side of his careful programme, Liss-  
ner presides over the meeting in per-  
son.

He inevitably suggests some careful  
electrician watching the working of his  
engine on such occasions.

From the chair, he takes on the de-  
bate or shuts it off with the cold dis-  
interest of an engineer. When-  
ever a speaker tries to butt in with  
something not on the programme, Liss-  
ner cuts him off in the middle.

When he does not think it best to  
preside, Lissner is even more inter-  
esting. He takes a seat far back in  
the hall, and watches his trained per-  
formers with his thin sardonic smile.

**CITY'S WATER RIGHT AFFIRMED.**  
The Supreme Court has affirmed the  
judgment of the lower tribunal in the  
water case of the city of Los Angeles  
against Jesse D. Hunter and about 150  
others who claimed a right to use wa-  
ter which percolates into the Los An-  
geles River. The city brought suit to

quiet title in the Superior Court, and  
won its case. Appeal was taken upon  
grounds previously argued in similar  
water cases. The court cites its rul-  
ings in the city of Los Angeles against  
Fomery and others in support of its  
present decision. The defendants, who  
live in the San Fernando Valley, seek  
wells to obtain their water supply.

**SELL AT ANY PRICE.**  
State Supreme Court Holds That Set  
Rate on Olive Oil Is in Restraint  
of Trade.

In reversing the decision of the  
lower court in the case of Charles A.  
Grogan against H. C. Chaffee of Pas-  
adena, the Supreme Court has enun-  
ciated a principle of great interest to  
retail merchants. In the case at bar,  
the plaintiff sought to restrain the  
defendant from selling olive oil at a  
price lower than that fixed by the pro-  
ducer. The lower court found in fa-  
vor of the plaintiff.

The appellate tribunal holds that  
such regulations are in restraint of  
trade and that the defendant has a  
perfect right to sell the product at  
any price he considers proper.

It is said that some manufacturers  
sell their goods on condition that they  
be sold at a price fixed by the manu-  
facturer. From the present ruling of  
the Supreme Court it would appear  
that this practice cannot be main-  
tained as a matter of law.

**ELKS' LODGE OF BOWROW.**  
An excellent programme of music  
has been arranged for the annual lodge  
of sorrow services to be held in the

### The Popular Warner's Rust Proof Corsets at \$1.00

The corset is the most important factor in correct dressing. How necessary therefore that you should buy the model designed for your individual figure.

You can select it here from the celebrated Warner Bros. Corsets, which are scientifically designed. They produce those lines which impart grace and slenderness to the figure. Particular attention is called today to the following models sold at \$1.00:

|           |   |
|-----------|---|
| Style 120 | This corset is designed for the average full figure, with low full bust, and long close fitting skirt that prevailing fashions demand. Equipped with pair of hose supporters.                   |
| Style 156 | This model is admirably adapted for the tall figure. It has moderately high bust, and very long straight skirt, which is thoroughly comfortable. Fitted with two pairs of hose supporters.      |
| Style 157 | A long-back, long-hip corset that produces the fashionable straight lines with no sacrifice to comfort. The bust is moderately low, and material soft jean. Two pairs hose supporters attached. |
| Style 274 | A giraffe-top model with long hips. This is especially designed for the slender, petite figure. It has soft boning in the side and is equipped with two pairs hose supporters.                  |

We also show complete lines of following popular makes:

|   |                   |
|---|-------------------|
| GLORIA CORSETS, made expressly for the "Villie" | \$1.00 to \$6.00  |
| W. B. CORSETS.                                  | \$1.00 to \$3.50  |
| ANITA CORSETS.                                  | \$4.00 to \$15.00 |
| MADE CORSETS.                                   | \$1.00 to \$2.50  |
| SMART SET CORSETS.                              | \$6.00 to \$13.50 |
| WARNER'S RUST PROOF.                            | \$1.00 to \$6.00  |
| MADAME IRENE.                                   | \$5.00 to \$18.50 |
| NEMO CORSETS.                                   | \$2.00 to \$10.00 |

### Sale of SHORT JACKETS

Original Values to \$25.00  
Choice Today **\$5.00**

This remarkably low price is made to close out broken lines and an accumulation of short jackets in covert, broadcloth and unfinished worsteds. Lengths 30 to 34 inches.

Part II: Editorial and Business—City and County

**Editorial Points**

"City have and let slip the dogs of war!"

And if we must to war, why, then, let us arise and go like men.

When switchmen strike it is a good idea to switch to other switchmen.

Now about the traditional "sixteen Scottish poets." Are they to go, too?

Uncle Aleck has taken a good many steps in his long life just going from one office to another.

At this distance it appears that Lloyd George's promised "slump in dukes" is about to fall due.

Our candid opinion regarding the situation in Great Britain is that the belted earls are in for a belting.

If he continues as he is going, we think that something like a gold medal is coming to William Mulholland.

We doff our sombrero to Señor Rodriguez, who says Nicaragua will fight the United States to a fare-you-well.

We don't know how it will sound when translated into Spanish, but Knox's letter to Rodriguez is hot stuff in English.

While the spanking is on it might be just as well to warm up the anatomy of Honduras, too, and save another trip.

All there is about it is that the time has come when Latin-America must get down to brass tacks and quit playing monkey.

As far as holding office is concerned, Uncle Aleck is a captain of industry, without a doubt. In fact, he's a regular field marshal.

It would seem from the reports that the English do not love a lord nearly so much as when Bobby Burns wrote the poem about it.

Courts are trying to dissolve the Standard Oil Company and assassins are trying to bring about the dissolution of Mr. Rockefeller.

We think any government that makes a fight against religion makes a losing fight. Otherwise the outlook for the human race would not be happy.

Sam Campers how demands that some court decide the question as to what the law is. Sam wouldn't know it if he met it in the middle of the road.

The trouble with a federation of labor unions is that there is usually some branch of it on strike, which results in also putting the other branches on the bum.

Dictator Zelaya was getting along pretty well until he caused the death of two citizens of the United States. Then he came face to face with a fatal mistake.

The dispatches state that the coming election will be the most interesting ever held in Ireland. If that's the fact it would be worth while going to Ireland to see it.

A man so easily escapes accident when walking in his sleep that we are almost persuaded to the belief that it were better for one to do all one's walking that way.

"Why not western managers for western railroads?" asks a Denver writer. If it will help to get passes a little more easily there will be lots of editors in favor of it.

In order to bring Nicaragua to terms we suppose it may become necessary for the United States to send as many as 140 marines and two companies of infantry down there.

It will doubtless be to the personal advantage of President Zelaya if he will make a close study of the route lately taken by another fire-eating person known as Cipriano Castro.

When a town is made the subject for all kinds of political flack it affects the town the same as a person is affected on whom all kinds of patent medicines have been tried.

Be not deluded by the whines of the hypocrites. Look up the records of the men who are making this howl and you will find that they have reputations that smell to heaven.

Señor Rodriguez declares that the message of the Hon. Philander Knox giving him the bounce went straight to his heart. To touch the heart of a Nicaraguan kick him in the rear.

From the City Hall to the Courthouse, from the Courthouse to the City Hall, the stones are worn by the feet of Uncle Aleck's journey to and fro on that pathway throughout the long, long years.

Speaking of those Jewish girls who are selling kisses to build a synagogue in Chicago, we will say that we have seen girls that a man would walk a tight rope to kiss, not to speak of getting one for mere money.

Uncle Aleck ought to prove a great example for men of the William J. Bryan type who seek office through oratory. The Mayor is no orator, but the way he puts in time throwing the larriat over of fences is a caution to the cowboys.

In answer to a correspondent we desire to say that Castroville, Cal., was not named in honor of Gen. Cipriano Castro, late of Venezuela, but for another Gen. Castro, who was a good deal like "Op" in several important respects.

## NO RETREAT FROM GOOD STREETS.

Los Angeles is a great city. It is becoming greater every day and will soon be the greatest metropolis west of Chicago, and in a quarter of a century one of the leading cities of America. Good streets are vital to a great city. One of the hardest problems to solve in the growth of Los Angeles during the last twenty years has been this one of streets. We grow so rapidly that subdivisions multiply and homes spread for miles in all directions. In spite of the enhancement in the value of property it has been a heavy tax upon property-holders to maintain the streeting of the city in conformity to what was reasonably demanded. There are few greater drawbacks to life in Los Angeles today than the inadequate improvement of the streets. It is going to be a tax too heavy to be easily borne for years to come. But the load must be carried and we must press forward in spite of its weight with all possible celerity until we get the city streeted as it should be.

These reflections grow out of a present contention before the City Council. Certain property-owners who desire to add new subdivisions to the city find that the cost of complying with the ordinance in force, defining what kind of streets may be laid, is too heavy to meet comfortably. They ask that a little easier terms be imposed upon them. The question was up on Wednesday before the Council on recommendations coming from the Board of Public Works, and the ordinance would have been passed had not pressure been brought to bear upon the Council by real-estate men opposing the change. Upon their showing a postponement of action was taken until Wednesday of next week.

The question ought to be considered in a spirit of justice, but the view should embrace the interests of all. Those who ask for a modification of the ordinance which would permit them to put in cheap streets point to the existence of many miles of "dirt" streets already in the city which will not be paved until the property-holders on these thoroughfares see the necessity of such action, and a majority of them petition to have the work done. We cannot make retroactive ordinances and compel the paving of these streets in subdivisions already accepted.

On the other side there are the broader interests of the whole community to consider. What is asked by those desirous of opening new subdivisions on a more lenient streeting programme is a modification of the ordinance which would permit them to lay a makeshift which yet would be an improved street. The Board of Public Works objects to this plan because of the cost it would entail upon the city to take care of these inadequately improved streets. A compromise was arranged, and would have passed the Council but for the protests, by which subdivisions hereafter opened would have been sidewalked and curbed in accordance with the existing ordinance, but the improvement of these opening the subdivision. The city would not undertake to keep up these streets. The contention of those who protested before the Council is that if any modification of the existing ordinance be made it shall specify that in new subdivisions the streets may be graded according to the official levels and then either improved properly as the present ordinance requires or left as "dirt" streets.

Now, this would place the new subdivisions on an exact equality with the old ones where "dirt" streets exist. There would be no injustice to any interest, and those who bought property and settled upon these streets would know exactly where they stood. The lots could not be palmed off upon newcomers under the pretense of being on improved streets to be cared for by the city. It would be left to these settlers to pave these streets when they got ready, as in the old subdivisions, but when they are paved it must be done in a way that will make really good streets of them.

Many persons, very much interested in the welfare of the city, think we have enough property subdivided into building lots to last some years. They think that it is time to go forward and not backward, and if they had their way all subdivisions hereafter opened would have to be properly streeted with a good solid pavement, that would last without continual expensive repairing, that might be accepted by the city and would not entail too much cost for repair. There is no doubt there is a good deal to be said in favor of this view.

In any case, it is well to know that no modification of the ordinance is to be adopted without due consideration and giving all those interested an opportunity to lay their case before the Board of Public Works and the Council. It is an important subject and we trust that it will be weighed most carefully and the permanent interests of the city and of all its inhabitants will be taken into the account rather than those of a few intent upon opening up new subdivisions, putting in inadequate streets and then turning them over to the general taxpayers to keep in repair for many years to come.

## THE SUPPORT OF OUR PROSPERITY.

It is no vain boast, nor is it mere political "dope," when we say that this country must either maintain the Republican party and its fundamental principles in control of our affairs or suffer disaster. The fact that for sixty years the party never lost control of the Federal government but once is a sufficient demonstration that this is the conviction of the majority of the people of the United States.

Recently inside of the party there has grown up a feeling that the country has grown beyond the necessity of maintaining Republican principles. Some who call themselves Republicans claim that the old Republican principles, instead of making for our prosperity, are an obstacle in the way of our industries.

There never was a more serious mistake made in statesmanship or in economic questions than this. As a matter of fact, the country has more need of tying to Republican principles today than it ever had at any other time in its history. Unless the party is continued in power and its principles are kept alive and active, our industries will decay and our prosperity will cease.

The most important of all Republican principles and the one which has distinguished the party more definitely from all other political schools is that of protection to American industries by means of high tariff duties imposed upon goods coming from beyond seas. Without activity in our manufacturing industries we can have no prosperity. If we surrender our home market, vastly the greatest of all markets, to competition on the part of goods made abroad by labor paid inadequate wages, stagnation must follow.

In former times it was necessary to protect our home industries against the goods made by such low wages as prevail in England, France, Germany and other European countries. Today we have to compete with the labor that is paid the wages prevailing in Japan and China. The poorest wages in Europe are 25 cents a day, and that only for women and children. We are speaking of skilled labor. The poorest-paid labor of men commands a wage of 60 cents to \$1 a day in Europe. Half of these wages would more than measure those paid in Japan and China.

We have been talking of exporting products of iron to the Orient, and in a way no doubt this will be realized. But how many of us think persistently of the fact that China is now shipping to this country products of her iron smelters? Of course it is rough material out of which more finished products are to be made here. We shall be able, no doubt, to sell to the Orient a great many implements and machines which the unskilled labor of those countries is not yet capable of producing. But

## Los Angeles Daily Times

### TAGGED.

how long will it take the Japanese to learn to make even the finest edged tools as well as we can make them in this country? How much longer will it take the Chinese to learn to do the same work? China is rich in metallic ores. The people there are awakening more rapidly than we think. Goods will be bought where they can be had the cheapest if free trade prevails.

We cannot compete with the poorly paid labor of Japan and the even less well-paid labor of China in any way but by degrading the American workmen to the level of the Japanese and the Chinese.

We have the choice. We can continue the Republican party in power and keep its fundamental principles alive and active in the protection of our industries from impossible competition with the poorly paid labor of the Orient; or we can let the coolies of the Orient do our work and sell our goods on the basis of their degraded labor, or let our laboring people sink to the exact level of the Chinese coolie.

## ARMY REFORMATION.

Mr. Dickinson, the Secretary of War, has taken up a practical reform in handling the little standing army maintained by the United States. We are today back in the practices of fifty years ago before the Civil War broke out. Previous to that time about the only use we had for soldiers was to protect frontier settlers from Indian depredations. Consequently the small number of enlisted men in the army were scattered at the most dangerous points where Indian outbreaks might be looked for.

All that is changed today. The chances of an Indian uprising are one to a thousand to what they were half a century ago. The few Indians remaining in the United States are not enough to create much of a disturbance if they were so disposed. They have by this late day learned that revolt against the authority of the United States is a vain case of "kicking against the pricks."

Mr. Dickinson's reform consists in stationing the standing army in subdivisions near great cities. It scarcely deserves the epithet of reform excepting that in this day of ours every little movement or change is branded as a reform. It is simply a change in the administration of the army affairs.

We would suggest one amendment to this proposition made by the Secretary of War. There is as little necessity for any part of the standing army at St. Louis or Chicago, Milwaukee or St. Paul as on the plains near Indian reservations. The danger of an outbreak that cannot be handled by the National Guard of the different States at any city is small. What we would propose would be the stationing of the standing army at seaport towns where elaborate fortifications exist. The Secretary proposes that severe riding and walking tests be maintained in the army, and he is quite right in that. The old Latin name for an army is a thing that is exercised, and without exercise a soldier is a poor investment for any country to maintain. But in addition to the walking and riding tests we would suggest that the training of the men in the use of the guns would be a very good addition to make to the drill.

Of course this implies the training of about all the army as artillerymen. Even taking that extreme view of it, we think the conditions would justify the new movement. If we ever are to need the standing army it will be upon the seaboard. We may dismiss any idea of an army penetrating far into the United States. We are too far removed from the base of supplies for any foreign foe and we are too numerous a people to make it possible for any hostile body of men to penetrate our country very deeply. Anyhow, waiving this part of the argument, they could not get to the interior without landing on the coast, and the coast towns will be the first point of resistance. Moreover, in modern warfare artillery plays a greater part than ever. In the recent struggle between Japan and Russia the Japanese artillery really won most of the battles. In warding off invasion at the port towns the artillery would be the only arm available.

If the time should ever come when a part of the standing army was needed to quell riots or insurrections in the interior of the country, near great cities, the transportation of a few thousand men from one side of the continent to the other would be easy, and to transfer them half across the continent would be still easier.

Laymen throughout the country are now of the opinion that if the Supreme Court were to affirm the decision of the lower court dissolving the Standard Oil Company, the octopus would merely change its name and go right ahead doing business at the old stand. And there you are.

## BURDETTE'S COMMENTS.

### The Kid With the Big Brother.

Men who went to school about the time that many other people did will remember that one of the worst nuisances in any sort of a school was the little atom of impudence and freshness who had a big brother. He was a daily torment to lads of his own age, who occasionally cast their caution to the winds and gave the little fellow the licking he deserved. Then straightaway the big brother sailed into the trouble with letters of reprimand and unjustly trounced the victor.

The little insect was also a constant irritant to the bigger boys. He thrust himself into their company, insisted on being permitted to join in games too rough for him, and trailed around after the older boys when they started off on excursions of their own. By and by, when he became simply unendurable, some fellow, with a high sense of what was the best thing on earth for a little snipe who couldn't stay in his own place, slapped him twice or thrice. Then again the big brother appeared, jackets flew off, sleeves were rolled up and two good friends manled each other schoolboy fashion, all for the sake of a little mischief-maker who had richly earned the slaps with which he had been corrected.

Once in awhile, on some glorious day when the school-yard justice slipped the bandage far enough off one eye to see what was going on, the big brother ran up against a champion who administered a "tarnal good lickin'" to him, good and plenty, which the victim passed on to the little brother who had negotiated it for him; and Peace, with her tender eyes, perched on the back fence until she was pushed overboard by the entrance into the happy band of learners of a new boy with red hair and a missing front tooth—the kind of a boy who has to be tried out, but with very ill-dissembled reluctance. After that sort of a boy—freckles, too, you remember—who can whistle like a lark and expectorate at a mark through that dental aperture, had been "tried out." Peace returned, with a black eye, to be sure, and settled on her old roost with the air of a goddess who has filed preemption rights on a homestead claim with a creek running through it and a wood lot on the north half. And the boys were free to teach each other new noises and plan new tricks on the teacher until the kid with the big brother broke but again.

There are some boys who never outgrow this big-brother habit. There is a class of speed-manics whose names have grown to be a regular entry in the police-court docket. Father, a law-abiding citizen, has come to consider the fine for speeding a part of his little son's education expenses, and pays it without a murmur. Remove father from this scene of earthly activity and expense, and that youth would miss all the city scenery on his joy rides, because his eyes would be so closely glued to the impassive face of the speedometer.

Another youth comes airily up against another kind of fine, and the reporters merely mention that "his name is suppressed on account of his family." What he needs is to have his respectable family suppressed for just one day, just long enough for him to figure in a funny police-court story, told in the police reporter's raciest style, with Gale's funniest pictures uproariously distorting the little brother's prominent features. Once would be enough.

The young man who forges a few checks to carry him through a spree that is scheduled to last from St. Louis to Los Angeles and return, because he knows his loving mother would sacrifice her fortune, if need be—and sometimes it is necessary—to take up the forged paper and save her dear son, would undoubtedly be a better citizen for at least one term of seclusion in the company of retired financiers of his own impulsive class.

The brute who beats his wife because he knows very well that if the police should be called in by the neighbors he can always successfully appeal to her wifely fidelity, her womanly pity for a pleading man, her shame for her children, and her fear of destitution should be sentenced to a long term of imprisonment, would not dare to beat his mother-in-law, were he a widower. Not more than once.

The world is grievously tormented by these insolent, irritating, offensive kids with big brothers. The spectacle of a big brother, strong and brave and chivalrous, who is the champion and protector of a little brother who is timid and weak and affectionate, is beautiful. All men admire such a big brother and love such a little one. But the little brother whose adventures are all indulged at the big brother's risk and fighting prowess, without

## FRIDAY, DECEMBER 3, 1931

### MUSIC AND THE STAGE.

danger or pain to the adventurer, needs a special application of the cat-o-nine-tails, by the administration of the knout, with the impressive ritual of the bastinado. This may sound unnecessarily cruel, suggestion is not made that they should be on at once, or even during the same scene, sibly not in the same act. They should be used in a manner calculated to secure the lasting interest. Say, have one come on the marks of its predecessor are beginning to fade. It is admitted that a chorus of the would be too severely strenuous for even the cat of little brothers.

No one is disposed to question the right duty of this government to interfere with the fidelity of even a weaker nation, when that oppresses and unjustly punishes our citizens. American should be and should feel himself as safe anywhere on this earth as he is in Massachusetts, under the protecting shadow of the sacred codfish of Beacon Hill. But the rebel army, marching to the overthrow of the government, is a poor place for an American. True, he can wrap himself in the folds of the spangled banner there, as well as anywhere else, the most sacred bunting, out on the firing not bullet-proof.

If our citizens had been brutally murdered, justly executed, and made heroes, let our most infict summary punishment upon the culprits. But in the meanwhile, as we are the Dreadnoughts into commission for the wrongdoer, and for wiping the stains of insult smeared upon our flag by the Nicaraguans, hand us the reins to the brother who was doing, at that time of night, the dark of the moon, in our neighbor's house. We must hit our tottering neighbor, hit him hard and his misery at once. him, a square deal. Big Brother, reform his count. We had a rebellion on hands once.

Robert J. Burdette

## FOR TAX COLLECTOR.

No sane and unbiased man can deny the desirability of electing as City collector Mr. E. E. Johnson, the present assailable official who has served the city over Taggart, his opponent.

Mr. Taggart may have been a good doctor and restaurant waiter, but he has had no success in his handling of the city's finances. He has been a failure in every way. He has been a failure in every way. He has been a failure in every way.

## UNCLE WALT WARBLER.

BY UNCLE WALT MARSH OF EMPEROR.

Wears the Bowdler.

He was a mournful looking wreck, with a face and scrawny neck, and weary eyes, as though they had monopoly of wood. To get his labors done, all day he lolled and filled the air with yawns and snored. People called him yawnybones. One day he came and said: "Brace up, my friends, your head! The hookworm, deadly as any got you in its loathsome grasp! But I the hookworm and cook its everlast. Swing wide your mouth and do not close, and then he took his big springs and quack of dope, that lasted like a nail, down the patient's yawning throat, got that hookworm's goat!" One day the patient drew, and bit a lightning bolt and dived over his cottage roof, and nimbly, joyous heart, he sped across the plain and burned a school and robbed a doctor, watched his patient streak across the scene, and said: "I am a hookworm, become warm! What wonders Science can do!"

## He Preferred Death.

When Charles Dudley Warner was in the Hartford (Ct.) Press back in the '90s, by the patriotism of the State by his vision of the typewriter came in from the room and planting himself before the "Well, Mr. Warner, I've decided to go with you." With mingled sensations of pride and pity, Mr. Warner replied encouragingly, glad to see the man felt the call of duty. "Oh, it isn't that," said the truthfully, "but I'd rather be shot than to try to do of your copy."—[Rochester Herald.]

## Why Is a Judge?

After a lawyer has demonstrated his ability in the matter of keeping people out of justice he is elevated to the bench, and the purpose of giving it to them.—[Chicago Tribune.]

## Locating the Time.

Mamma: Oh, Tommie! What are you doing? When did you wash them hands? Tommie: I for, mamma. What we had company?—[Yonkers Statesman.]

## Brooches.

The Christmas designs in Brooches are beautiful beyond anything we write about. The most desirable made in 14-carat gold. Many of we know will not be duplicated.

season we are sure they are our patterns. We have by actual count 400 entirely new patterns, fully that number of patterns in designs that are staple and not so common. We would like you to see our Goods. The largeness of the stock impress you. The prices for a 14-carat gold brooch, plain pattern made, heavy article, commences at then on up to \$10.00, when the stones such as topaz, amethyst, and other semi-precious stones, on up to \$60.00. Five to Ten Dollars beautiful brooch. Let us show you today—no obligation to buy.

**NO INDIGESTION OR SICK STOMACH**

**HEARTBURN, GAS, HEADACHE AND DYSPESIA GO AWAY AND YOU WILL FEEL FINE IN FIVE MINUTES.**

**There is not a single reader of The Times who suffers from any form of stomach trouble who can afford to leave Diapiesin untreated. There is no other preparation which gives such prompt and lasting relief.**

**Take your sour, out-of-order stomach—or maybe you call it indigestion, dyspepsia, gastritis or catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50c case of Diapiesin and let you eat one 12-grain Triangule and see if within five minutes there is left any trace of your former misery.**

**The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice, your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, gastritis or catarrh of Stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness, or many other similar symptoms.**

**If your appetite is sickle, and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.**

**Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong with this fermentation and begin eating what you want without fear of discomfort or misery.**

**Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.**

**Bullock's**

**Bullock's Bargain Basement**

**Good Usable Lengths of Wool Dress Goods in a Basement Sale Friday at Exactly Half Worth Price.**

**2000 Yards China Silk Today at 23c**

—A value that should attract hosts of women to the Basement Silk Section today. The 2000 yards should fly away in a hurry at 23c, for every good color, including black and white is here—and every yard is a bargain at 23c.

**Slipper Bargains for Men—Women and Children**

—good slippers—at prices 'way under what you would expect to pay just before Christmas, when everyone is buying them for gifts.

**Slippers for Men \$1.49.**

Fine soft kid house slippers in tan or black; well made and neatly trimmed. Others at 95c and 50c.

**Women's Slippers 98c.**

Felt slippers in all colors with trimmings of fur and flexible soles—Bargains at 98c. Other felt slippers at 79c.

**Children's Slippers 79c.**

Blue, red and gray felt slippers with fur trimmings and flexible soles—Bargains at 79c. Sizes 11 to 2, at 89c.

**Handkerchief Booth in Basement**

—is fairly overflowing with dainty gift suggestions. There are handkerchiefs of linen, of lawn and of cambric for men, women and children—some of them boxed—all of them excellent values.

**AT 3 FOR 50—Children's cambric handkerchiefs, with printed or picture borders.**

**AT 3 1/2—Women's cambric handkerchiefs with neat printed borders—3 1/2c each.**

**AT 50—Men's cambric handkerchiefs with 1/2 to 1-in. borders—over 200 dozen of them to go at 50c each.**

**AT 50—Women's handkerchiefs of cambric, lawn and Japanese in pretty printed effects.**

**AT 3 FOR 150—Children's handkerchiefs put up in neatly designed boxes—3 for 15c.**

**AT 7 1/2—Large handkerchiefs in delicate flowered patterns; wanted for fancy work.**

**AT 100—Men's handkerchiefs of pure linen with 1/2-inch hemstitched borders.**

**AT 12 1/2—Women's handkerchiefs of lawn with pretty scalloped borders and embroidered patterns.**

**AT 150—Men's fancy silk handkerchiefs with 1/2 or 3/4 in. hemstitched borders.**

**AT 250—Women's handkerchiefs of lawn with 1/2-in. hemstitched borders and embroidered patterns.**

**Sterling Silver Toilet Ware**

**Exclusive Brock & Feagans' Designs**

**STERLING SILVER TOILET SET IS ONE OF the most cherished and prized possessions of a woman. And particularly if it comes from the house of Brock & Feagans, for all our toilet wares are characterized by the distinctive character of the patterns.**

**As a unique Christmas gift, there could be nothing of a higher order or more permanent nature.**

**We carry all our patterns in open stock, so that you may regulate the cost of your gift by giving as few or as many pieces as you desire—and you may add to the set on future gift occasions.**

**In the Rex pattern—a beautifully etched design—the hair brush costs \$8.50, the comb \$2.25, the mirror \$15, the cloth brush \$7, the powder jar \$7.75, the toilet bottle \$6, the buffer \$3.25, and other manicure pieces \$1.75 each.**

**In the Gypsy pattern, which is very artistic, the prices are considerably less, and in the space which is left for engraving, the monogram or initials may be engraved without additional cost.**

**We also show unusual designs in separate manicure sets of sterling silver, in attractive cases—a four-piece hand-engraved set at \$15; a nine-piece hand-engraved set at \$28, and other less elaborate sets at less cost.**

**For baby, a sterling silver toilet set of four pieces—talcum bottle, soap box, brush and comb, in case, may be had for \$10.00—sterling brush and comb in the Nightingale pattern—a soft French gray floral design, in case, is \$2.25.**

# Lively Presentation of the Day's Interesting Happenings in Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## FAST SERVICE THEIR DESIRE.

Merchants Hear Rapid Transit Scheme Explained.

Committee Is Appointed to Investigate Matter.

Speakers Think Crown City Will Be Benefited.

Office of the Times, No. 28, Raymond Ave.

PASADENA, Dec. 2.—Largely attended and enthusiastic was the meeting held by the Board of Trade last night for the purpose of investigating the proposed rapid transit railway of the Pasadena Rapid Transit Company. Although it was a disagreeable night, the rooms of the Board of Trade were crowded with men eager to learn more about the new line, which promises to give a twelve-minute service to and from Los Angeles.

President O'Neil said the meeting was called on request of a large number of the individual members, and that its purpose was to look carefully into the merits of the new railway and not for any commercial purpose.

Homer M. Dobbin, president of the Pasadena Rapid Transit Company, was called on for a statement of what his company proposes to accomplish. Following his address, several members spoke in support of the project, including John McDonald, Leo McLaughlin and W. F. Knight, who was chosen to select members of the board of directors and to conduct a thorough investigation into the proposition of the company and report thereon.

H. M. Dobbin said in part: "Pasadena was once the most easily and quickly reached city in Los Angeles county from Los Angeles. Today that is not the case. It is the purpose of the Pasadena Rapid Transit Company to give Pasadena the same rapid transit service that Los Angeles has. The line will be nine miles long and we will make the trip in twelve minutes. It will place Pasadena as close to Fourth and Main streets as the Santa Fe depot, as Twelfth and Maple, as Chutes Park, as Pico and Figueroa, as Beverly Hills and Glendale.

"This is a Pasadena road and we want all of the profits to come to Pasadena. We want our banks to handle the money of this road. I do not want to cast any reflection on the Pacific Electric road. It is doing a wonderful work for Pasadena. The future holds out no hope for betterment. I want the Board of Trade to look carefully into this road. We are not building this road to fight the Pacific Electric. We will have an up-to-date subway. The Pacific Electric has one of the most wonderful surface suburban systems in the world. The proposition is this: You are composed of the best representatives of Pasadena. You have advertised this city in all parts of the world. This road is as much your property as Pasadena. You are to do the best you can for the 25,000 people of your city. If your Board of Trade will lead us to the Pasadena Rapid Transit Company, the matter will soon be closed up and the road built.

Judge Gibbs said: "I want better accommodations than we now have. We want more seating room and more cars and quicker time, and if this new company can give them to us I am in favor of doing all we can for it." J. W. Wood said: "I am very glad to take the Pacific Electric. It has done all it can for us. It takes nearly as much time to come from Sixth and Main streets in Los Angeles to Los Angeles street, as it does to come to Pasadena. We want quicker time. I have taken some of the stock of the company because I believe it is a good thing."

W. F. Knight said: "There is no question but that we need better car service between Pasadena and Los Angeles and if the Rapid Transit Company offers a solution to the question then I am in favor of it. As to how far the Board of Trade can go in the matter that will have to be decided when the committee has made its report."

C. J. Brainerd remarked: "I will say one thing. When the Cross road was built some said we did not want it and that it would hurt our business. It was built and our business increased. The same was done when each of the other roads was built and every time our business increased. I believe the same thing will occur in this instance. I believe there will be plenty of business to go in the road and that Pasadena will be benefited by this new line."

**DOG "ARRESTED."**  
The first dog caught under the provision of the new ordinance is a pretty collie, belonging to Louis N. Merritt, corner Terrace and Eleventh Drives. The collie was in the street in front of the house when Humane Officers Sullivan and Chapin drove along. Merritt saw the officers take the dog but in accordance with the new law he was powerless to make any objection but went at once to the Humane Office and deposited \$2. He was permitted to take the dog home. Dr. Boucher, city veterinarian, received word from Berkeley yesterday stating that a portion of the germs taken from the dog's head sent from Pasadena had been given to rabbits and that the rabbits are dying with symptoms of rabies. State Veterinarian Keane is expected in Los Angeles this week to make further investigation into the epidemic.

Another dog was found on Chestnut street yesterday which is suspected to be suffering with hydrophobia. It will be watched carefully for further evidence of the disease. A meeting of the new directors of the Merchants' Association yesterday afternoon was held at the headquarters of the association, 28, Raymond Ave. A. J. Bertonneau, secretary, presided. The officers were elected: E. C. A. president; T. W. Mather, vice; J. H. Stevens, assistant secretary; J. H. Stevens, assistant secretary; J. H. Stevens, assistant secretary.

**NEW PASTOR ARRIVES.**  
Catholic pastor of the First Church, Rev. Daniel J. Frank, arrived in Los Angeles early yesterday morning, accompanied by his wife and two children. They were met at the airport by Rev. J. H. Stevens, who had been given the news of his arrival by a friend. Mr. Frank is a native of Chicago and has been in the priesthood for many years. He will take possession of his new parish on Sunday.

Police Surgeon Quint and Wines examined the injured man and found that he had two long lacerations on his forehead and the other on his

regional Church at Chicago, and had the reputation of being one of the foremost preachers in that city. This is his first visit to Southern California, and he stated yesterday that he is sure he will enjoy the country and its people. Mr. Fox has traveled extensively in foreign countries.

**CHILDREN DEFICIENT.**

After a careful inspection of all the children in the public schools, the medical examiners announce that over 100 pupils have been found physically deficient in some form or other. These have been ordered to take the physical training which the city will provide at the Carmelita playground. Four classes have been arranged, and the training will be given on the ball ground. The gymnastic work will be in charge of W. C. Wilson, physical director, and the work to be done is intended to correct defects in the chest, stoop shoulders, hollow chests, etc. This new move is much praised.

**PASSENGER BOOBS CHECKED.**

Another check artist made his appearance yesterday, this time at the Boston Dry Goods store for \$25.00. The bogus check was made out in favor of C. C. Porter and signed by the California Produce Company, which was broken up in Southern California. A careful description of the artist was given to the police.

Dr. Robert J. Burdette will again occupy the pulpit of the West Side Congregational Church next Sunday morning. It is announced that this will be the last sermon he will preach on his proposed trip to the Orient.

Seventy-two dozen strictly fresh eggs were smashed and strewn about the foot of a tree yesterday morning. It is very difficult to get strictly fresh eggs in Pasadena at this time of the year, when the egg producers are piling in by the hundreds, all wanting fresh eggs for breakfast. Every one of the 84 precious eggs which were broken scattered along the fashionable avenue could have been readily sold at 5 cents. Neither the price nor the quality of the eggs made any difference to the horse who frightened by its driver, William Drew, who raised an umbrella while driving along Main street, and who was thrown out of his wagon, but suffered no injury. The wagon was wrecked. The greatest loss was the broken eggs.

**"FOR BENEFIT OF SCIENCE."**

The latest move on the part of the Pasadena Humane Society is to stop the practice of certain High School students in killing cats for the benefit of science. Unless the practice is stopped immediately, the society has threatened wholesale arrests of students in the scientific department of the High School. It is alleged that members of the society that two or three people make their living by catching cats and selling them to the students who use them for scientific purposes, such as testing poisons, vivisection, etc.

Col. W. J. Kane, one of the promoters of the Pasadena Association, has offered two silver cups, which will cost \$100 each, as prizes in the Tourney of the Tones. The contest will be the best horse and the other to the best decorated animal. It is also announced that there will be several prizes for the best decorated lady's electric automobile.

Rev. Baker P. Lee, rector of Christ Church, Los Angeles, will deliver the principal address at the "Lodge of the Sorrows" to be held by the Elks Sunday afternoon at 3 o'clock. Harry M. Young, Pasadena, will deliver the eulogy. The music will be furnished by Mrs. Willis Norman Tiffin, who has composed the new volume of a quartette composed of Messrs. Jones, Aspinall, Novis and Fleming.

**FOUND GUILTY.**

J. Kurger, proprietor of the Crown Jockey restaurant, who was arrested a few days ago for selling beer out of hours and selling whiskey in violation of the city ordinance, was tried in Justice McDonald's court yesterday before a jury on the formal count. The jury found him guilty and he will receive his sentence on Saturday. He will be tried on the other count later.

Mr. and Mrs. Isaac Bailey returned yesterday from their home on South Euclid avenue from an extended trip through eastern States. The members of the faculty of the University of California at Berkeley, who were in the city for the first time, were in the city for the first time.

One of the delightful social functions of the season was an informal entertainment given by Mrs. Howard Huntington at her beautiful home in Oak Knoll, yesterday afternoon, in honor of a few friends from Los Angeles and Pasadena.

One of the prettiest weddings of the season was that of Miss Helen Judd of No. 48 Summit avenue, to Earl S. Stockton, last night at the First Baptist Church, Rev. Mr. Coombs officiating. After the ceremony the bride couple left for a short wedding trip. They will reside at No. 703 Bellevue Drive on their return.

**JAPANESE EVENING.**  
Mr. and Mrs. R. O. Kendall, No. 218 South L Street, Robles avenue, entertained at dinner last night. The menu was a "Japanese evening." The floral decorations were yellow and white chrysanthemums. Covers were laid for Mr. and Mrs. Herbert C. Holt, Mr. and Mrs. Ratcliff, Mr. and Mrs. R. H. Hertel. The evening was spent playing bridge.

Col. and Mrs. Alfred H. Sellers returned to their home on California street yesterday from an extended trip in the East. They spent several weeks visiting old friends in Chicago.

Frank G. Hogan has sued R. M. Douglas for \$235.18 damages to his automobile. The suit was filed in the Superior Court. The damages were caused by the carelessness of Douglas. The Hognans and Douglas have been in the Green street traffic collision and Hogan's automobile was badly damaged. The suit was filed in the Superior Court.

Mrs. Charlton Edholm Shiley, formerly of Los Angeles, is in the city for the first time. She is the wife of a prominent businessman and is expected to stay in the city for some time.

Have you seen that magnificent new painting in Wadsworth's window? The stock of the Pasadena Rapid Transit Company is now selling at \$100 per share.

See Phelps for fine wall paper. Hotel Mira-Monte, Centrally located. English pickin articles for men. See to \$12. George A. Clark Co. Artist's material at Wadsworth's. Hotel Vista del Arroyo. New annex. Unexceptionable environment. Pasadena.

Hotel Vista del Arroyo, \$10.50 and up per week.

## NEWSBOY SAVES VISITORS' BABY.

JUMPS BEFORE CAR AND DRAGS CHILD OFF LINE.

Led the Only One Who Retains Presence of Mind When Fatally Seem. Almost Certain Nervy Youth Licks Cash Register at Store. Boys Sent to Juvenile Home.

LONG BEACH, Dec. 2.—Milton Ross, a newsboy, this morning at the risk of his own life, saved the 2-year-old daughter of Mr. and Mrs. H. A. Spear of Whittier from death beneath the wheels of a Pacific Electric car, in front of the Pine-avenue station.

Mr. and Mrs. Spear were en route home after a visit here. While standing in the depot waiting for a car they did not notice the child wandering onto the tracks and slip upon the wet rails until it seemed too late. The terrified mother stood in frozen fear as the car came down the track, with the motorman madly reversing and applying the air to check it.

The child was the only one who retained his wits, casting his weight to the ground, he ran out, seized the little one and dragged her almost from under the fenders. She was unhurt.

He was made much of by the parents and by-standers, but bore himself modestly and, under pretense of selling his papers, slipped away to the street, finally escaping.

**LOOTS CASH REGISTER.**

Late yesterday evening a young man called at the Berlin bakery on Pine avenue and asked for some fresh doughnuts. Miss Althea Wood, the clerk, went to the bakery to get the doughnuts. The man followed her to the rear to fill the order and, while she was absent, the man looted the money drawer of \$10.00 in cash and a purse belonging to Miss Wood containing a \$15 diamond and a \$5 emerald ring.

Ivan Elmore and Donovan Miles, each 17 years old, were arrested this morning charged with stealing fifty gunny sacks from Edward Rogers and a box of cigars from William Stanbury, both of whom were in the city. The boys were charged with the theft of the cigars. The boys were charged with the theft of the cigars.

**TYPEWRITER DISPUTE.**  
Statements of Mrs. Lillian McMillen, stenographer of the Chamber of Commerce of Long Beach, regarding non-payment for work done for the Chamber of Commerce, were made yesterday by the Chamber of Commerce. The Chamber of Commerce is denying the latter. Miss Jewett has a copy of the manuscript for the Chamber of Commerce. The Chamber of Commerce is denying the latter.

Mrs. McMillen, who told of Miss Jewett's assertions, said that if the author had any receipts for the work, she would see them. Mrs. McMillen said that she had a copy of the manuscript for the Chamber of Commerce. The Chamber of Commerce is denying the latter.

Mrs. McMillen came to her with a story of ill-fortune and, as a result, the Chamber of Commerce is denying the latter. Mrs. McMillen said that she had a copy of the manuscript for the Chamber of Commerce. The Chamber of Commerce is denying the latter.

Mrs. McMillen, who told of Miss Jewett's assertions, said that if the author had any receipts for the work, she would see them. Mrs. McMillen said that she had a copy of the manuscript for the Chamber of Commerce. The Chamber of Commerce is denying the latter.

appointed by the Los Angeles Chamber of Commerce will make a thorough inspection tomorrow of the lands at Point Firmin desired for fortifications. The company, George H. Peck, the owner, Mr. Peck has prepared several propositions which he believes will prove acceptable to the War Department.

**PETITIONS PREFERRED.**

Primary Election System of Nomination Not Favored in Santa Monica. Forty-one Candidates.

SANTA MONICA, Dec. 2.—Sample ballots are this week being mailed to each of the 2000 registered voters of Santa Monica. There are forty-one candidates on the ticket. There was not one party nomination, all having been by individual petition in preference to employing the primary-election system of nomination. The four candidates for Mayor all entered in the same ward. Politics has not entered into the campaign, but the cry is for economy, and in support of this it is being shown that the tax rate has jumped from .45 in 1907 to \$1.45 for the current expenses have advanced from \$53,000 to \$115,000 per year.

The baseball team has arranged for a game for the local diamond next Sunday afternoon. The game will be between the local line and the Wells-Fargo team of Los Angeles.

The girls' basketball team of the High School will play a game on the local grounds Saturday afternoon with the team from San Pedro, and the boys' basketball team will play with the eleven from Santa Ana.

Mr. and Mrs. Ned Goodwin have arrived at their seaside home near Newport, where they will spend the next three months along the shore, returning to Chicago in time to open an engagement ring store in the city. During the fall many improvements and additions have been made to the Goodwin home, which is one of the best places of the beach.

This was a great day for the Japanese fishermen at the beach. In the vicinity of Port Los Angeles last night and today the rain fell in heavy precipitation, the season's total now being 2.37 inches.

**SENDS FIFTY DELEGATES.**

Pomona Will Have Fifty Representatives at State Bar Association Convention.

POMONA, Dec. 2.—Fifty delegates from this city are planning to attend the State Bar Association and Philatheta convention, which will open a three-day session in Los Angeles tomorrow night. J. R. Rancho Casey, president of the Pomona Bar Association, and J. R. Rancho Casey, president of the Pomona Bar Association, are planning to attend the convention.

The monthly social meeting of the Woman's Club was held yesterday afternoon at the home of Mrs. H. C. Brown on Avenue 16. The president, Mrs. J. H. Anderson, and Mrs. A. M. Brown, the delegates to the meeting of the District Federation of Women's Clubs recently held in Pasadena, gave a report. Miss Monna Trindel demonstrated the Fletcher method of teaching music.

**SOUTH PASADENA.**  
SOUTH PASADENA, Dec. 2.—Spontaneous combustion caused a fire last evening at the residence of D. Z. Gardner, No. 508 El Centro street. The Japanese servant, after polishing the floors with a preparation of linseed oil and wax, left the soaked rags on the screen porch. The fire was discovered, the porch was blazing. The flames were extinguished with a garden hose. The cause of the fire was discovered. The porch was blazing.

**HUNTINGTON PARK.**  
HUNTINGTON PARK, Dec. 2.—Rev. W. W. Gillette, pastor of the Baptist Church, has presented his resignation, asking that it take effect February 1. The announcement was made to the members of the church, who are unanimous in their demand that the pastor remain. After being waited upon by a committee from his church yesterday, Rev. Mr. Gillette announced that he would think the matter over again and give his final decision Sunday.

**GLENDORA.**  
GLENDORA, Dec. 2.—The Ladies' Aid Society of the Methodist Episcopal Church held a bazaar yesterday. The sum of \$120 was realized, and was devoted to the work of the church. Jacob Flower is erecting a two-story brick building on the southeast corner of Broadway and Fourth streets. The building is of brick and concrete. The building will be devoted to stores. This is the first brick building to be erected on the west side of Broadway, and certain restrictions having been but recently removed.

**CLAREMONT.**  
CLAREMONT, Dec. 2.—E. B. Warner addressed the students this morning on "Education and Oratory." The art department of the college held an exhibit today of reproductions of masterpieces. There was also an auction of the best work of local pupils, to raise funds for the purchase of new paintings.

**WANTS HIS BAIL REDUCED.**  
Attorneys for Sigel E. Skinner, who is accused of impersonating a government agent, will apply to Judge W. C. Horn of the United States District Court, today, for a reduction of bail. Skinner's bond was fixed at \$500, a sum considered excessive by his counsel. On the other hand, the government prosecutors assert that Skinner is guilty of extensive land frauds besides posing as a Federal agent. They assert he has made thousands of dollars by intimidating innocent holders of assigned tracts in the Imperial Valley. They will resist the motion for a reduction of bail.

Mrs. E. A. Routh has been appointed Horticultural Inspector for this district. He has already begun the examination of a number of citrus fruit holdings, and will make a thorough inspection of all citrus fruit trees in this locality.

**GLENDORA.**  
GLENDORA, Dec. 2.—A. R. Lowell, proprietor of the Hotel Glenn, gave a banquet to the real-estate agents last evening. Covers were laid for twelve. Speeches on the subject of the real-estate market and the most effective methods to adopt in inducing home-seekers to locate were made by R. B. Bidwell and others.

The Glendora Realty Company reports the sale of five acres on Vista avenue, improved and set for team stands, at the corner of J. M. Hale to Mrs. J. A. Huhn; consideration, \$2495.

Good Detweiler had a narrow escape from death today in a runaway accident. In a vain effort to regain control of the horses, headed by a span of downy white stallions, he was thrown from the tongue of the wagon. With great presence of mind he swung underneath and dropped to the pavement, escaping without serious injury.

A mist began at 9 o'clock a.m. today and thickened as night approached.

**FOUND DEAD IN FIELD.**  
ARTEZIA, Dec. 2.—John Aultman, a vegetable gardener living near Norwalk, about three miles north of here, was found dead in his field yesterday. He had been plowing, and came to the house for a drink of water, leaving his plow in the field. He was found in the same place and became suspicious. She went across the field and found her husband's body lying in the furrows. He had apparently died immediately upon his return from the house. Dr. M. M. Kay of this city was called and pronounced the man dead. Aultman was about 62 years of age and had lived in this district for many years.

**AZUSA.**  
AZUSA, Dec. 2.—Robert H. Hiett, for nine years ranger in the Angeles forest reserve, has resigned and will move to Delano in Kern county, where he has bought a ranch. Ranger Hiett of Glendora will be in charge here until summer, when Hiett's place will be filled by Ranger Hiett.

The monthly social meeting of the Woman's Club was held yesterday afternoon at the home of Mrs. H. C. Brown on Avenue 16. The president, Mrs. J. H. Anderson, and Mrs. A. M. Brown, the delegates to the meeting of the District Federation of Women's Clubs recently held in Pasadena, gave a report. Miss Monna Trindel demonstrated the Fletcher method of teaching music.

**GOLD DUST Clean**  
Everything and Injures Nothing

The beauty of GOLD DUST is that it cleans thoroughly without the least danger of injury. There are many good cleaners on the market which do the work quickly and well, but which contain abrasive matter, and in time will scratch through brass, tiling, porcelain tubs and all highly polished surfaces.

GOLD DUST does the work, does it and does not wear away the surface. The and surety of GOLD DUST has been proven years of service for all cleansing purposes in thousands of "neat-as-a-pin" homes.

Why experiment when GOLD DUST stands without an equal as an all round cleanser?

## Pretty Framed Pictures for \$2.50

You'll be surprised what that low price will do in the way of holiday gifts in our picture department Friday. Handsome framed pictures in sizes ranging from 15 by 18 to 20 by 20 inches—in rosewood, walnut, mission and antique gold frames. All the popular carbon prints and beautiful landscape and marine subjects.

## Bungalow Craft Portieres at \$2.95

Exceptionally pretty ones and absolutely correct in style. Good weight tapestry in rich colors, with neat Persian bands set on. Also plain art colors in bungalow cloth with stenciled and applied borders. Any one of these styles would make a most appreciable Christmas gift. We have colors to match any room or finish.

## COUCH PILLOWS \$2.00

Silk plush, fine tapestry and silk damask covered. With select quality silk fluff filling. Materials alone are worth more.

## TAPESTRY COUCH COVERS At \$1.95

In splendid reversible color combinations. Good heavy weight and durable.

## ARABIAN CLOTH YARD 19c

Choice silk damask material. Dainty in design and color. You save just a quarter.

## ARABIAN NET CURTAINS

Just the plain net—not made up—would be more. Some plain hemmed, with lace seams. Others with dainty corner designs.

## GREAT DECEMBER SALE OF OVER 500 WOMEN'S COATS

## FINE COATS AT \$25

It's a remarkable exhibition—this lot of coats that will be admired by hundreds. The variety of styles, materials and cuts is wide enough to please all. Full length tan covert coats of the famous Wornbo covert, with guaranteed satin lining; fancy mixed and plaid back material coats, with high auto collars; fancy effects, in coats with kilts from knees down—and, more favored than all, the best broadcloth coats on the Coast at \$25. Of handsome deep black chiffon broadcloth, Skinner's satin lined and exquisitely tailored throughout. No. 3000—ask for that number.

\$30

This is our one sale of the season. A saving of \$5 to \$10 on every garment. The not a job lot, but a staple and desirable for all-the-year-round. Only our quantity made the cutting, operating, finishing class as it will be these low prices. hint—better come

## Coats at \$12.95

This is the strongest coat leader offered this season at the price. Made 34 inches long, of fine black Kersey, 7/8 fitted, with lap seams, half satin lining and full sweep around the feet. Splendidly tailored. Also full length coats of dark gray diagonal, with coat collar, fitted back, military cuffs and nicely tailored in single breasted model. This is an extremely dependable and stylish street coat—one you'll admire.

An All Coat Offering

## Coats at \$30.00

The most genteel looking coat we've seen; 54 ins. in length. Of the finest grade chiffon broadcloth; 7/8 fitted, and with that aristocratic air imparted by the highest degree of tailoring. Guaranteed satin lining. Revers black moire faced. Also smartly designed auto coats of heavy coating, in greenish gray, with high collars and plaited skirt, and fine grade Wornbo covert cloth coats.

All Magnificently Tailored

## COATS AT \$15.00

But two of the lot are illustrated—52 and 54 inch, fine black broadcloth, 7/8 fitted coats, all satin lined; also tan and striped covert cloth and novelty mixtures. Coat and auto collars. Medium and the heavier weights. Also some plain colored broadcloth coats, prettily trimmed with strapping of black satin or braid. Only judicious buying of popular materials, and contracting for expert tailoring in large quantity, made these coats possible at \$15.

These Coats Are Unequalled Values

## COATS AT \$21.75

The sketches showing two of the styles do them but partial justice. Exquisitely tailored 54-inch coats, in several different styles, all on long, graceful lines, with guaranteed Skinner satin lining throughout. Also the famous Wornbo covert cloth, and a range of very smart fancy mixtures in auto effects; high collar; double breasted; large buttons. Some with plaid back. Also gray and brown street coats, plaited from the knees to neck. You will surely want one of these coats at this price.

Most Any One Is Worth \$30
